Executive Summary

Achieving Excellence & Equity, Learning & Leadership, Public Confidence, and Well-Being are priorities in the <u>2015-2020 Strategic Plan</u>, <u>Possibilities Today and Tomorrow</u>. Hastings and Prince Edward District School Board(HPEDSB) is committed to providing students with dynamic, inclusive educational experiences, enhancing the learning environment in its schools for all students and ensuring fiscal responsibility. To maximize the investment in students, HPEDSB works to keep education funds focused on the classroom.

The Board will consider from time to time, the need to consolidate, close or relocate a school(s) due to changes in curriculum, program demands, student enrolment, community demographics, facility needs and other factors. In some circumstances these considerations may result in the need to carry out an accommodation review for a school or group of schools.

Ministry of Education documents and funding require the development of new or revised capital plans to effectively right-size and manage excess capacity in schools. School boards are expected to have capital plans that address the future needs of their students. HPEDSB must ensure students are being provided with appropriate programming and facilities. By responsibly managing school space, including excess space, education funds can be focused on student's needs, achievement, and well-being.

This Long-Term Capital and Accommodation Plan:

- 1. Meets the requirements of the Ministry of Education to develop a capital plan which includes enrolment projections, school capacity, renewal needs, potential consolidations and the construction of new schools or additions, including significant renovations.
- 2. Provides background information on enrolment, school buildings, demographics, community use and transportation;
- 3. Provides a framework for decision making with respect to students over the next 10 years and schools; and
- 4. Provides possible accommodation scenarios.

The Long-Term Capital and Accommodation Plan is a living document, and will be monitored and updated as required. This document does not make specific recommendations about any school.

Over the last decade, elementary enrolment in the board has declined by 21% and secondary enrolment has decreased by 26%. Ontario school boards are mainly funded on a per-student basis through grants from the Ministry of Education. School boards, and therefore schools, lose funding as their enrolment declines. When funding decreases, all students in a board are affected because the cost of maintaining empty space is spread across all of the schools.

Current projections indicate that:

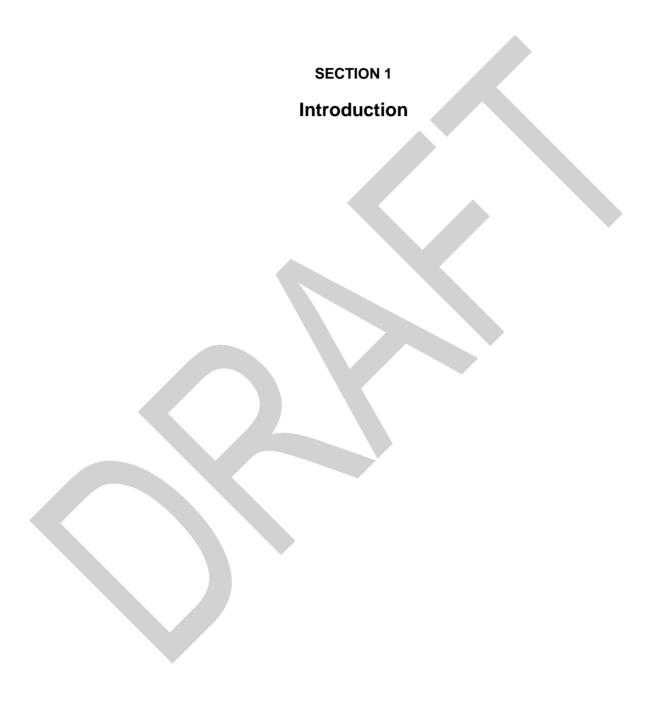

- Elementary enrolment is projected to decrease to approximately 9,950 students by 2028-2029, representing a 2% decline from existing figures and resulting in a total of approximately 2,858 surplus spaces in the elementary panel.
- Secondary enrolment is projected to decrease to approximately 4,500 students by 2028-29, representing a 12% decline from existing figures and resulting in a total of approximately 3,300 surplus spaces in the secondary panel.
- Enrolment forecasts indicate that while elementary surplus spaces will remain somewhat consistent at approximately 2,680 to 2,858; the secondary surplus spaces will increase from the current 2,666 surplus to 3,304 by 2028-2029.
- The board has significant renewal need of \$250 million over a ten year period.

HPEDSB's elementary schools are, on average, 54 years of age and many additions have been constructed. The average age of secondary schools is approximately 60 years with most having at least one addition constructed. As well, recent funding formula changes for school operations indicate that it will not be possible to operate and maintain existing facilities at their current level of utilization.

A variety of accommodation scenarios are outlined to address the surplus space in schools due to declining enrolment. Each scenario is described in the following Long-Term Capital and Accommodation Plan and includes details on the current situation as well as proposed options for addressing the concerns.

It is expected that these accommodation scenarios will be the basis for the development of specific recommendations for accommodation reviews under <u>Policy 15: Student Enrolment/School Capacity: Pupil Accommodation Review</u>. This will be a multi-year plan which follows a process mandated by the Ministry of Education and includes opportunities for community involvement and input.

1.0 Introduction

Hastings and Prince Edward District School Board is committed to providing students with dynamic, inclusive educational experiences. To maximize the investment in students, HPEDSB works to keep education funds focused on the classroom.

1.1 Strategic Plan

The <u>2015-2020 Strategic Plan</u>, *Possibilities Today and Tomorrow* consists of a vision, mission, priorities and goals, all of which are all built on the foundation of our eight <u>Growing with Character</u> attributes of caring, cooperation, honesty, humour, integrity, respect, responsibility, and trustworthiness.

Achieving Excellence & Equity, Learning & Leadership, Public Confidence, and Well-Being are priorities in the strategic plan. HPEDSB is committed to student achievement and well-being. Each student is an individual with unique interests, goals and strengths. Each should be given the opportunity to explore the possibilities for today and tomorrow, and move towards graduation from their chosen pathway.

Vision

All students prepared and empowered for the possibilities of today and tomorrow.

Mission

We create dynamic, inclusive educational experiences that develop capable, confident, curious learners who thrive and contribute to their communities.

STRATEGIC GOALS

ACHIEVING EXCELLENCE & EQUITY

- Increase graduation rates and reduce achievement gaps for students not yet at the provincial standard.
- Provide programs and services to help each student achieve success.
- Support all students to be globally minded learners and leaders.

LEARNING & LEADERSHIP

- Involve students, cultivate student leadership and voice.
- Collaborate as a learning organization to engage all employees in developing their growth plans.
- Implement a renewed succession planning process for school and system leaders.

PUBLIC CONFIDENCE

- Ensure effective management of all resources (i.e. human, financial, environmental).
- Operate through good governance.
- Be leaders in public education.

The strategic goals are reviewed annually.

WELL-BEING

- Develop the elements of well-being for students and employees collaboratively.
- Create welcoming, inclusive, safe and accepting learning environments that optimize students' potential.
- Build the capacity of employees to deliver positive social and emotional learning experiences.

1.2 Guiding Principles

School boards must develop a school accommodation strategy that takes their specific issues into consideration when ensuring how to best support program delivery, student achievement, and well-being. Hastings and Prince Edward District School Board is committed to providing the best educational opportunities while ensuring fiscal responsibility and to enhancing the learning environment in its schools for all students.

The Board will consider from time to time, the need to consolidate, close or relocate a school(s) due to changes in curriculum, program demands, student enrolment, community demographics, facility needs and other factors. In some circumstances these considerations may result in the need to carry out an accommodation review for a school or group of schools. Policy 15: Student Enrolment/School Capacity: Pupil Accommodation Review describes the process for conducting accommodation reviews.

These Guiding Principles are consistent with the Board's commitment to provide equitable and sustainable learning environments, and are well aligned with the 2015-2020 Strategic Plan, *Possibilities Today and Tomorrow*:

- 1. Student achievement and well-being.
- 2. Effective stewardship of school board resources.
- 3. Student curriculum and program needs, as well as funding and renewal needs, will drive facility planning.
- 4. Upgrades to the condition of facilities will occur where feasible.
- 5. The Board will comply with Ministry of Education guidelines for school consolidation and closure decisions.
- 6. The Board will exemplify open decision-making, Board oversight and public participation in capital planning.

1.3 Purpose of the Long-Term Capital and Accommodation Plan

Ministry of Education documents and funding require the development of new or revised capital plans to effectively right-size and manage excess capacity in schools.^a School boards are expected to have capital plans that address the future needs of their students^b. HPEDSB must ensure students are being provided with appropriate programming and facilities. By responsibly managing school space, including excess space, education funds can be focused on student's needs, achievement and well-being.

"When a school has excess space because of low enrolment, the excess space still costs money to staff, maintain and operate. One of the key responsibilities of school boards is to ensure that funding is focused on the students who are in classrooms, and not on maintaining empty classrooms. The board must make decisions about the best accommodation and program options for students relative to funds that are available."

The purpose of the Long-Term Capital and Accommodation Plan is to:

1. Meet the requirements of the Ministry of Education to develop a capital plan which includes enrolment projections, school capacity, renewal needs, potential consolidations and the construction of new schools or additions, including significant renovations.^d

^a Ontario Ministry of Education, <u>Memorandum to Directors of Education, 2016:B06, Grants for Student Needs changes for 2015-16 and 2016-17</u>, March 2016

^b Ontario Ministry of Education, Community Planning and Partnerships Guideline, March 2015

^c Ontario Ministry of Education, Guide to Pupil Accommodation Reviews, February 2015

^d Ontario Ministry of Education, Community Planning and Partnerships Guideline, March 2015

- 2. Provide background information related to HPEDSB's long-term capital and accommodation plan;
- 3. Provide a framework for decision making with respect to students and schools; and
- 4. Provide accommodation strategies.

The Long-Term Capital and Accommodation Plan is a living document, and will be monitored and updated to reflect current data, as required.

1.4 Background

Hastings and Prince Edward District School Board serves approximately 15,100 students each day at 38 elementary and 8 secondary schools. Supporting student achievement is the goal of approximately 1,800 teaching and support staff who, in addition to the contributions of caring volunteers and community partners, share their passion for teaching and learning.

The district covers a wide geographic area of 7,221 square kilometres, bordered by Maynooth to the north, Deseronto to the east, Prince Edward County to the south and Quinte West to the west.

Currently, HPEDSB elementary schools have 10,000 students with a surplus of more than 2,600 pupil places. As well, the secondary schools have 5,100 students and a surplus of approximately 2,700 pupil places. Forecasts indicated that the board will have over 2,700 surplus spaces at elementary schools and more than 3,400 surplus spaces at secondary schools, leading to an overall surplus capacity of 6,100 pupil places by 2028-2029.

Over the last decade, elementary enrolment declined by 21% and secondary by 26%. Elementary enrolment is projected to decrease to approximately 9,900 students by 2028-2029 representing a 2% decline from existing figures. Secondary enrolment is projected to decrease to 4,500 students by 2028-2029, representing a 12% decline.

The average age of the schools is 54 years old, resulting in a 10 year Board-wide renewal event cost approximately \$250 million. As well, recent funding formula changes for school operations indicate that it will not be possible to operate and maintain existing facilities at their current level of utilization.

1.5 Methodology

This Plan has been developed based on the updated data and recommendations provided by Watson & Associates Economists Ltd, in the Long Term Capital Study Report and Recommendations, dated November 9, 2015; HPEDSB databases and staff and trustee input. Section 9 includes a Glossary of Terms to explain terms used throughout this document.

1.6 Previous accommodation/consolidation reviews

HPEDSB's elementary schools are organized in groups linked to a secondary school. The goal of providing a suitable and equitable range of learning opportunities in a school or group of schools requires monitoring and active curriculum and programming decisions. Decisions that might require consolidation, closure or program relocation will take into account the needs of all of the students in all of the schools in a particular school group or groups of schools.

In recent years, the Board has worked on accommodation/consolidation issues and made decisions following accommodation reviews, including:

- Closure of Sir Mackenzie Bowell and consolidation into Sir John A. Macdonald Public School and Prince Charles School Belleville, with renovations and additions to both facilities:
- Consolidation of Bancroft Public School and North Hastings Senior Elementary School with renovations and additions to the new York River Public School;

- Consolidation of Athol-Central Public School and South Marysburgh Central Public School with renovations and additions to the new Athol-South Marysburgh Public School;
- Consolidation of S.H. Connor Public School and Tweed-Hungerford Senior Public School with the construction of the new Tweed Elementary School;
- Consolidation of Stirling Primary School, Stirling Junior Public School and Stirling Senior Public School, and the construction of the new Stirling Public School;
- Closure of Harmony Public School and opening of the newly constructed Harmony Public School;
- Closure of Sir Winston Churchill Public School and consolidation with Harry J. Clarke Public School, including an addition to the school;
- Consolidation of Breadner Elementary School, College Street Public School and Queen Elizabeth Public School (Trenton) with the construction of a new JK-8 elementary school in Trenton, and
- Consolidation of Earl Prentice Public School and Marmora Senior Public School with renovations and additions to Marmora Senior Public School.

Capital and accommodation planning is a continuous endeavor and staff will monitor each planning area. Staff will recommend to the Board of Trustees which planning studies should be considered through Public Accommodation Reviews consistent with Ministry of Education (MOE), and Board policies and procedures.

Planning study recommendations are based on pressures experienced in program delivery, and enrolment/utilization and facility condition. These factors are the basis for the delivery of quality learning environments for current and future students of HPEDSB.

SECTION 2 Program Considerations

2.0 Program considerations

The long-term capital accommodation planning process provides opportunities to align with the strategic goal of Achieving Excellence & Equity through program considerations that can strengthen and improve programs for all students Kindergarten (K) to Grade 12.

HPEDSB creates dynamic, inclusive educational experiences that develop capable, confident, curious learners who thrive and contribute to their communities. Our graduates are developing as Globally Minded Learners and Leaders that see themselves as connected citizens of the world. They will apply relevant knowledge and skills to make a difference in local, national and global contexts. All students are prepared and empowered for the possibilities of today and tomorrow.

All programs K-12 are focused on the implementation of *The Ontario Curriculum* and the development of 10 HPEDSB competencies: Caring Inclusive Citizens, Collaboration, Communication, Creative Thinking, Critical Thinking, Digital Fluency, Entrepreneurship, Literacy, Numeracy, and Well Being.

Program considerations provide aspects of student programming to which attention should be given while making decisions about long-term capital planning across the district.

2.1 System programs

Consideration should be given to sustainability and equity of access to system programs across the district. This includes Special Education programs as well as, French Immersion and Extended French programs.

2.1.1 Special Education

Consideration should be given to creating inclusive educational experiences to address the needs of all learners in home schools. When necessary, specialized or regional special education programs should be considered within school group areas or regions in the district.

2.1.2 French Immersion and/or Extended French

Equity of access to French Immersion and/ or Extended French programs should be considered in each school group area of the district. Opportunities for new programs should be supported and an earlier start at Senior Kindergarten or Grade 1 entry should be contemplated. A balance of English and French program streams should be maintained in any school with French Immersion or Extended French programs.

2.2 School based programs and program innovations

Consideration should be given to the sustainability of current school based specialized programs that offer students opportunities that are unique to the school community. Examples include the Adventure Program, Destinations, secondary Arts Program, International Baccalaureate Program, and the Intermediate Leadership Program.

School based programs unique to each secondary schools includes Specialist High Skills Majors (SHSM) where students focus on a career path that matches their skills and interests while meeting the requirements of the Ontario Secondary School Diploma (OSSD). Students receive the SHSM seal on their diploma when they: complete a specific bundle of 8-10 courses in the student's selected field, earn valuable industry certifications, such as First Aid and CPR qualifications, gain important skills on the job with employers.

In addition to current school based programs at elementary and secondary schools, opportunities for program innovation should be supported through the development of a framework for new programs that are based upon student needs, community interest and addressing retention challenges.

2.3 Learning commons

Consideration should be given to the development of a learning commons in each school. This flexible learning environment would include space for collaboration, using technology, e-learning space, working quietly and conferencing. A framework outlining key resources and guiding principles for the learning commons K-12 spaces will be developed as a resource.

2.4 Outdoor education & experiential learning

Facilities such as the H.R. Frink Outdoor Education Centre and community connections provide outdoor education and experiential learning opportunities for students. Consideration should be given to planning outdoor learning spaces on school properties to enhance experiential learning, creativity, fitness, well-being, and student inquiry across all curriculum areas.

2.5 Services and program support

Partnerships are encouraged between HPEDSB and community partners where feasible. Community Hubs and partnerships for student services and supports, such as child care, mental health and special education services support student achievement, equity and well-being.

2.6 Child Care

Consideration where viable, should be given to having access to before and after school child care programs in all schools with Grades K-6 through child care provision partnerships. Infant, toddler and preschool child care programs and early learning partnerships should be considered in specific sites with community partners where feasible.

2.7 School organization models and programming

As part of long-term and accommodation planning consideration should be given to models of school organization that enhance program provisions for students, maximize the use of space and contribute to viable business cases when applying for Ministry of Education funding. Consideration will also be given to the number of students enrolled in schools. Policy 15: Student Enrolment/School Capacity: Pupil Accommodation Review states that one of the criteria for activating a modified accommodation review process could be when the number of students enrolled is fewer than 300 for elementary and fewer than 750 for secondary. Opportunities for program enhancements through new structures should be contemplated, including:

- 7-12 Schools include all Intermediate (Gr 7 10) students in one building. Student transitions from Grade 8 -9 are enhanced as students are not changing buildings while adjusting to new Ontario Curriculum requirements of Grade 9 credit courses. Increased numbers of Grade 7 & 8 students and staff enrich specialized program opportunities as well as extracurricular activities. The consolidation of multiple resources in one school supports a range of dynamic, inclusive educational experiences which include opportunities for student leadership and mentoring. This model encourages students and their families to view the school as a true community and to establish longer term relationships. A Grade 7-12 model is likely to increase student retention from Grade 8 to 9
- K-6 Schools that are larger enhance specialized program opportunities within the school as well as
 extracurricular activities. The consolidation of multiple resources in one school supports a range of
 dynamic, inclusive educational experiences which include opportunities for student leadership and
 mentoring for younger students.
- K-12 Schools include all students within one school building. Student transitions are enhanced as students remain in the same school community throughout their K-12 experience. The consolidation of multiple resources in one school supports a range of dynamic, inclusive educational experiences which include opportunities for student leadership and mentoring. This model encourages students and their families to view the school as a true community and to establish long term relationships. It provides an opportunity to bring together staff from the Early Years to Grade 12 in one professional community
- 8-12 Schools may be considered as an alternative organizational model, although programs within
 the Intermediate division could be fragmented. Opportunities for professional learning among
 intermediate teachers in the elementary setting could be complicated by the relocation of Grade 8 to
 a secondary school.

SECTION 3 Demographics and Enrolment

3.0 Demographics and enrolment

Ontario school boards are mainly funded on a per-student basis through grants from the Ministry of Education. School boards, and therefore schools, lose funding as their enrolment declines. When funding decreases, all students in a board are affected because the cost of maintaining empty space is spread across all of the schools.

HPEDSB has opened new schools and closed older schools where the population of students has shifted. This is a reflection of the cycle of economic growth and decline, and demographic change within communities. If HPEDSB is to continue to deliver high quality education programs and services to students, the ability to respond and adjust to this change is necessary by understanding of the demographics and enrolment of the HPEDSB area.

3.1 Population

HPEDSB has experienced declines in the elementary and secondary aged population. Table 1 demonstrates the demographic trends from previous Census data.

| Table 1 Board wide Belliographie Trends | | | | | | | |
|---|-------------|-------------|-------------|-------------|-------------|--|--|
| HPEDSB Demographic Trends | | | | | | | |
| Population Data | 2001 Census | 2006 Census | 2011 Census | Change | % Change | | |
| | | | | (2001-2011) | (2001-2011) | | |
| Total Population | 142,138 | 147,533 | 149,437 | 7,299 | 5.1% | | |
| Pre-School Population (0-3) | 5,677 | 5,655 | 5,751 | 74 | 1.3% | | |
| Elementary School Population (4-13) | 18,712 | 16,606 | 14,936 | -3,3775 | -20.2% | | |
| Secondary School Population (14-18) | 10,009 | 10,339 | 9,494 | -515 | -5.1% | | |
| Population Over 18 Years of Age | 107,741 | 114,933 | 119,256 | 11,515 | 10.7% | | |
| Females Aged 25-44 | 19,513 | 17,981 | 16,197 | -3,316 | -17.0% | | |

Table 1 - Board-wide Demographic Trendse

Although the total population increased between 2001 and 2011, there were declines in the elementary and secondary aged population. The total elementary aged population living within HPEDSB's jurisdiction declined by 20% between 2001-2002 and 2011-2012. The total secondary aged population declined by approximately 5% during the same time period.

3.2 Enrolment

Historically, the elementary enrolment for HPEDSB has declined by approximately 24% between 2001-2002 and 2011-2012 while the secondary enrolment decreased by 16% during the same period. Table 2 illustrates the historical enrolment for elementary and secondary for HPEDSB, as well as the change over a 10-year period.

| HPEDS | HPEDSB Historical Enrolment Trends | | | | | | | | | | | | |
|-------|------------------------------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| | 2004- | 2005- | 2006- | 2007- | 2008- | 2009- | 2010- | 2011- | 2012- | 2013- | 2014- | Change | % |
| | 2005 | 2006 | 2007 | 2008 | 2009 | 2010 | 2011 | 2012 | 2013 | 2014 | 2015 | | Change |
| JK-8 | 12,767 | 12,246 | 11,754 | 11,391 | 11,038 | 10,677 | 10,519 | 10,433 | 10,391 | 10,192 | 10,129 | -2,638 | -21% |
| 9-12 | 6,951 | 7,021 | 7,068 | 7,097 | 6,816 | 6,719 | 6,327 | 6,001 | 5,745 | 5,365 | 5,146 | -1,805 | -26% |

Table 2 - HPEDSB Historical Enrolment Trendsf

While the historical trends are important, enrolment projections also provide information about the future of HPEDSB. Recently refreshed data supported by Watson & Associates is being used to support ongoing long-term capital and accommodation planning.

Elementary and secondary school enrolment projections are compared to capacity are illustrated in Table 3. Capacity represents the capacity a school has as determined by the Ministry of Environment by loading all instructional spaces within a facility to Ministry standards for class size requirements and room areas.

^e Watson & Associates Economists Ltd, *The Hastings and Prince Edward District School Board Long Term Capital Study Report and Recommendations*, November 9, 2015, pg 2

^f Watson & Associates Economists Ltd, Presentation - *Hastings and Prince Edward District School Board Long Term Accommodations Strategy, Final Recommendations*, November 9, 2015

Table 3 - HPEDSB Projected Enrolment Trends vs. Capacity ^g

| HPEDSB Projected Enrolment Trends vs. Capacity | | | | | | | |
|--|----------|-----------|---------|---------|---------|--|--|
| Panel | Capacity | 2014-2015 | Year 5 | Year 10 | Year 15 | | |
| Total Elementary | 12,809 | 10,129 | 9,998 | 9,917 | 9,951 | | |
| Student Surplus/Deficit | | (2,680) | (2,811) | (2,892) | (2,858) | | |
| Utilization Rate | | 80% | 78% | 77% | 78% | | |
| Total Secondary | 7,812 | 5,146 | 4,661 | 4,618 | 4,508 | | |
| Student Surplus/Deficit | | (2,666) | (3,151) | (3,194) | (3,304) | | |
| Utilization Rate | | 65% | 60% | 59% | 58% | | |

Current projections indicate that:

- elementary enrolment is projected to decrease to approximately 9,950 students by 2028-2029, representing a 2% decline from existing figures and resulting in a total of approximately 2,858 surplus spaces in the elementary panel.
- secondary enrolment is projected to decrease to approximately 4,500 students by 2028-29, representing a 12% decline from existing figures and resulting in a total of approximately 3,300 surplus spaces in the secondary panel
- enrolment forecasts indicate that while elementary surplus spaces will remain somewhat consistent at approximately 2,680 to 2,858; the secondary surplus spaces will increase from approximately the current 2,666 surplus spaces to 3,304 by 2028-2029.

The utilization rate represents the measurement of the physical use of the permanent school facility based on the comparison of enrolment to the capacity of the school. This provides an indication of whether a school group or group of schools is over or under capacity, and by how much.

Although the elementary utilization rates decrease slightly, elementary schools are well below full utilization at 80% and down to 78% by the forecast period of 2028-2029. Secondary utilization rates are much lower at 65%, and are expected to decrease to a further 58% by the forecast period of 2028-2029.

Figures 1 and 2 summarizes the elementary and secondary enrolment projections compared to the total capacity.

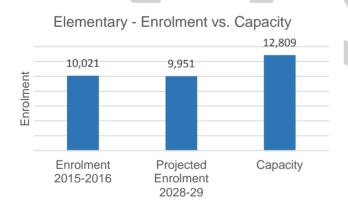

Figure 1 - Elementary Enrolment vs. Capacityh

7,812 4,875 4,508 Enrolment Projected Capacity 2015-2016 Enrolment 2028-29

Secondary - Enrolment vs. Capacity

Figure 2 - Secondary Enrolment vs. Capacityi

Based on this comparison, elementary schools will have approximately 2,858 surplus spaces and secondary schools will have approximately 3,304 surplus space by 2028-2029.

⁹Watson & Associates Economists Ltd, *The Hastings and Prince Edward District School Board Long Term Capital Study Report and Recommendations*, November 9, 2015, pg 3

h Ibid

i Ibid

HPEDSB schools are divided into eight school groups based on geographical location, as follows:

| School Group |
|------------------------------|
| Bayside School Group |
| Centennial School Group |
| Centre Hastings School Group |
| Moira School Group |
| North Hastings School Group |
| Prince Edward School Group |
| Quinte School Group |
| Trenton School Group |

Figure 3 delineates the school groups and illustrates each school location. Appendix A contains additional enrolment data per school group.

School boards are mainly funded on a per-student basis through grants from the Ministry of Education, and when enrolment declines, funding decreases. With decreases in funding, students are affected because the cost of maintaining empty space is spread across all of the schools.

When a school has excess space because of low enrolment, the excess space still costs money to staff, maintain and operate. One of the key responsibilities of a school board is to ensure that funding is focused on the students in the classrooms.

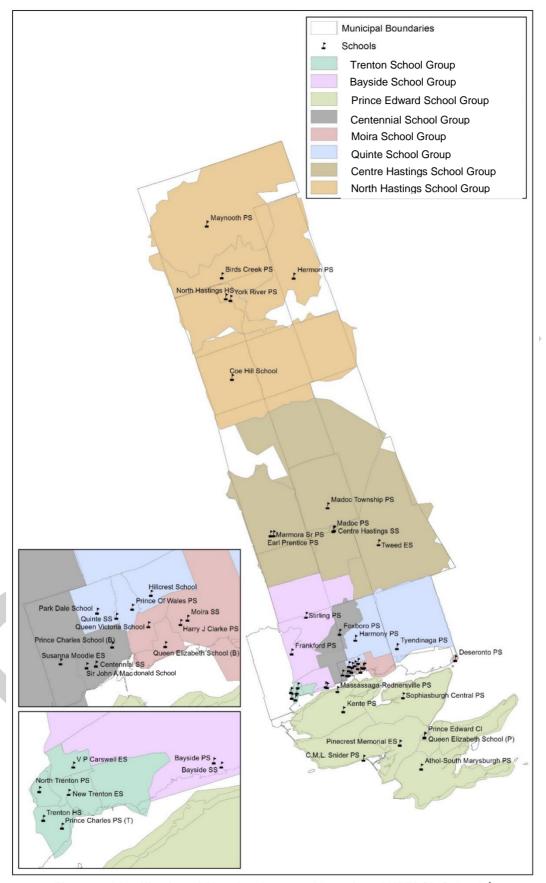

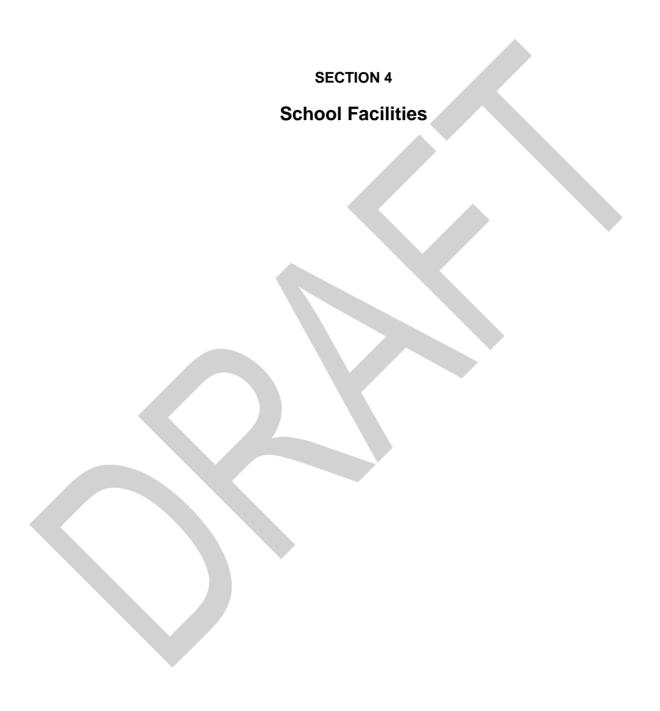

Figure 3 - Identification of Planning Areas and Location of HPEDSB Schools^j

^j Watson & Associates Economists Ltd, *The Hastings and Prince Edward District School Board Long Term Capital Study Report and Recommendations*, November 9, 2015, pg 6

4.0 School facilities

HPEDSB operates 38 elementary and 8 secondary schools have a wide variety of sizes, ages, and building conditions. The cost of operating each school includes the direct costs of utilities such a heat and electricity, as well as short-term maintenance and repair, and long-term building renewal costs.

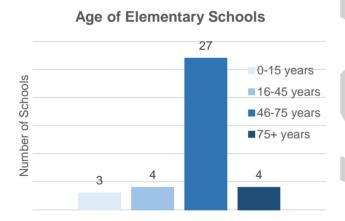

4.1 Size and age of facilities

The elementary school buildings total more than 119,400 square metres, averaging 3,062 square metres per school. The secondary facilities total more than 111,500 square metres, averaging 13,937 square metres in size per school. Together, the 48 school buildings managed by the board occupy more than 230,920 square metres of space.

The schools range in age from 2 years old to more than 100 years old:

- three schools that are 15 years old or less
- four schools between 16 and 45 years old
- the majority of schools (21) were constructed 46 to 60 years ago
- 39 or 81% of the schools were constructed over 45 years ago

The elementary schools are, on average, 54 years of age and many additions have been constructed. The average age of secondary schools is approximately 60 years with most having at least one addition constructed. Figures 4 and 5 summarizes the age of the elementary and secondary schools. Detailed information on school size and age can be found in Appendix B.

Age of Secondary Schools

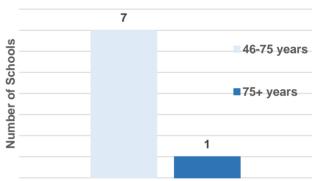

Figure 4 - Elementary School Age

Figure 5 - Secondary School Age

4.2 On the Ground Capacity

The Ministry of Education provides direction on school size and the number of classrooms and instructional spaces to meet enrolment needs. A student loading has been assigned to each category of instructional space based on the number of students that can reasonably be accommodated - different types of rooms have a different student loadings and differ between elementary and secondary panels. The sum of all student loadings within a facility is the On-The-Ground capacity (OTG)^k - the number of students that the facility can reasonably accommodate.

Examples of classroom types for elementary and secondary panels and their corresponding loading are shown below.

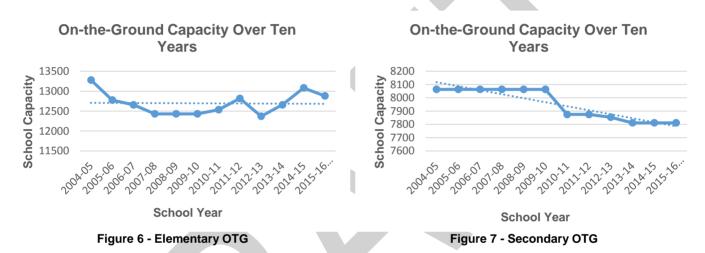

^k Ontario Ministry of Education, Education Funding Technical Paper 2015-16, Spring 2015

Table 4 - Elementary and Secondary Loadings¹

| Instruction Space | Elementary Loading | Secondary Loading |
|-------------------|--------------------|-------------------|
| Kindergarten | 26 | |
| Classroom | 23 | 21 |
| Special Education | 9 | 9 |
| Resource Room | 12 | 12 |

The elementary facilities have an average OTG of 330 pupils and vary from 118 spaces to 717 spaces across the range of schools. The average OTG for the secondary facilities is 910. Currently a total of approximately 20,621 student places exists, with 12,809 in the elementary panel and 7,812 in the secondary panel. Additional OTG information can be found in Appendix C.

The overall OTG can be changed by constructing new school, additions or by consolidating schools in order to best meet enrolment requirements. Several such changes have been made over the past 10 years, as shown in Figures 6 and 7 for the elementary and secondary facilities, respectively.

4.3 Facility condition and renewal needs

The condition of each school is periodically assessed and used to estimate renewal needs over the next 10 years. The Ministry of Education has assessed all of the board's schools within the past five years. These assessments included a detailed inspection and analysis of building and system components such as walls, foundations, roofing, windows, mechanical, electrical, plumbing and other systems for each school. The facility condition can assist in identifying replacement timing and estimated costs for building components, assist in identifying facility needs, and capital planning.

Building condition is assessed by comparing the cost of identified repair needs to the replacement cost of the building. This comparison, known as a Facility Condition Index (FCI), provides a ready means of determining which buildings are in good shape and which require significant investment - the lower the FCI, the better the building condition. When the FCI is above 65%, the Ministry considers the facility 'prohibitive to repair'. HPEDSB has more than \$250 million in expected ten-year renewal event costs resulting in an average FCI of 48%.

Appendix D contains additional information on renewal needs and FCI per school group.

4.4 Utilization

The Utilization Rate is the measurement of the physical use of the permanent school facility based on the comparison of Enrolment to the OTG of the school. This calculation provides an understanding of whether a school group or groups of schools is over or under capacity and by how much.

¹ Ontario Ministry of Education, Facility Space Template

The majority of the board's schools have an FCI between 40% and 60%, indicating that significant investment is required. Figure 8 compares the FCI and utilization rate for each elementary and secondary school.

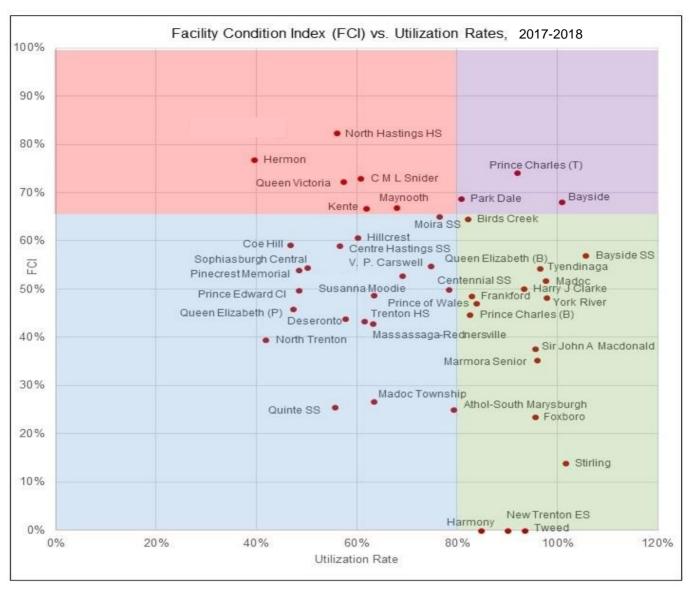

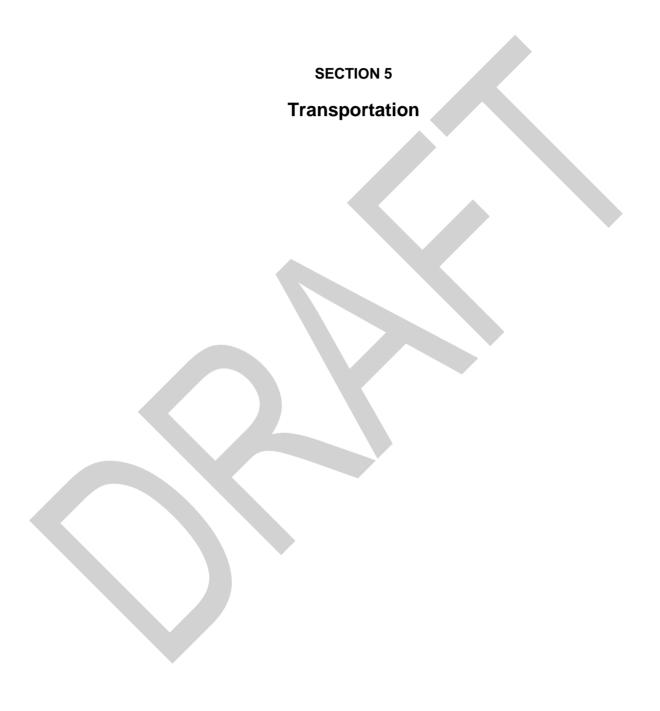

Figure 8 - FCI vs Utilization Rate^m

^m Watson & Associates Economists Ltd, *The Hastings and Prince Edward District School Board Long Term Capital Study Report and Recommendations*, November 9, 2015, pg 6

5.0 Transportation

Tri-Board Student Transportation Services provides transportation services to HPEDSB, as well as the Algonquin and Lakeshore Catholic District School Board and Limestone District School Board.

5.1 Walking distance and bussing for students

The principle business of Tri-Board is to provide safe, secure, on-time, cost effective transportation and related services to the students of the member boards, as outlined in Policy 17: Transportation of Students.

Board policy identifies walking distance for students as shown below:

| Walking Distances for Students | | | | | | |
|--|-------|-------|--|--|--|--|
| Grade Level Distance to School Distance to Bus Pick-up | | | | | | |
| JK-6 | 1.6km | 0.8km | | | | |
| Grade 7-8 | 3.2km | 0.8km | | | | |
| Grade 9-12 | 3.2km | 1.6km | | | | |

Approximately 4,700 students are eligible to walk to school, and approximately 7,600 students that are eligible to be bussed to school. While an additional 439 students are eligible to walk to school, they are bussed given a particular hazard, such as cross walks being unavailable.

Students are on a bus, on average, 22 minutes per day. Time spent on buses may fluctuate depending on school location, semester, route length and road conditions.

Tri-Board manages approximately 247 school bus elementary routes and approximately 205 secondary bus routes. Of those, 182 are shared elementary/secondary shared routes, with 132 being shared with Algonquin and Lakeshore Catholic District School Board. Figure 9 below illustrates the route count per school group.

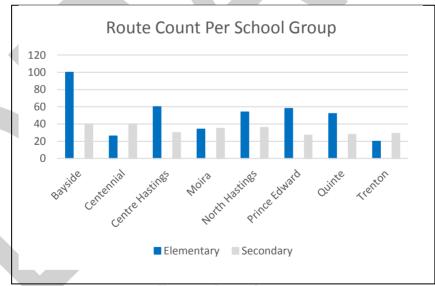

Figure 9 - Route Countⁿ

Transportation distances for students to and from schools is a factor that will be considered relative to the accommodation strategy.

ⁿ Tri-Board Student Transportation Services, March 2016

SECTION 6 Community Use of Schools, Community Partnerships and Hubs

6.0 Community use of schools, community partnerships and hubs

HPEDSB welcomes community use of schools and community partnerships in support of healthy, active lifestyles and sustainable, vibrant communities. The school board's first responsibility is to ensure student safety and well-being, and to support student achievement.

Cooperative and collaborative partnerships are part of the foundation of a strong, vibrant and sustainable public education system. Partnerships can strengthen the role of the schools in communities, provide places for programs, and facilitate the coordination of, and improve access to, services for students and the broader community. Facility partnerships must be on a cost-recovery basis to the school board. Procedure 570: Community Planning and Partnerships describes the process for establishing a facility partnership with community organizations.

6.1 Community use of schools

Schools can be hubs for community activities. They offer a place to come together, volunteer, build skills, access community programs, become physically active and build strong and healthy communities. The community use of schools program supports and promotes healthy, active lifestyles for community youth.

In partnership with the Ministry of Education, HPEDSB offers affordable and accessible space for community use outside school hours. School classrooms, gymnasiums, grounds and sports fields across the district are available for use by not-for-profit and for-profit groups, such as community, educational, cultural, recreational, youth and sports organizations. Space could be available for community use after school hours on weekdays and on weekends, in a manner that is both fair and equitable, on a cost recovery basis. The board, where feasible, will ensure that after-hours user fees are affordable for not-for-profit community activities.

<u>Procedure 540: Community Use of Schools</u> governs community use of school facilities and grounds, and describes the booking and permit application process.

6.2 Facility partnerships

The school board's primary responsibility is to support student achievement and well-being and ensure that the health and safety of students is protected. Within this context, Hastings and Prince Edward District School Board welcomes the opportunity to share facilities with community partners. The school board is committed to working with community partners to optimize the use of public assets, particularly when it relates to supporting students.

The construction of new schools, additions and renovations represent a significant public investment in a long term asset. It is also an opportunity to leverage other infrastructure investments by co-building with organizations that provide services and programs for children, their families and the broader community.

Opportunities for facility partnerships will be considered when building new schools and undertaking significant renovations, while balancing the use of unoccupied space in schools. This may also include properties associated with schools that may close and sites that may be considered for future disposition.

Consideration will be given to partnerships that:

- i) maximize the use of space in schools and board facilities and reduce facility operating costs;
- ii) improve services and supports available for students;
- iii) strengthen relationships between the school board, community partners and the public; and
- iv) provide a foundation for improved service delivery for communities.

The responsibility of the Board of Trustees is to ensure that the educational needs of the students are met before other options, such as facility partnerships are considered.

The school board will share planning information on an annual basis, or as required, with local municipalities and community organizations as it explores options to address under-utilized space in schools. Similarly, the school board encourages community partners to share planning information when considering proposals or plans to build their own facilities.

<u>Procedure 570: Community Planning and Partnership</u> describes the process for establishing facility partnerships with community partners and other entities and for effectively sharing planning information with community organizations, including land use and green space/park planning.

6.3 Child care and early learning

HPEDSB recognizes that school boards play a key role in integrating and coordinating early-years and child care programs. Providing an environment where services can be co-located for the convenience of parents and families is an important consideration. Schools are a significant part of identifying local needs and priorities for community hubs.

A variety of child care and early learning programs are offered in many schools in HPEDSB. They provide children and families with a seamless transition to school and quality services in a safe, welcoming and inclusive learning environments. Programs are operated by community child care and early learning partners and are based on family and community needs.

Before and after school child care programs will be considered, where viable, in all schools with Grades K-6. Opportunities for infant, toddler and preschool child care programs and early learning partnerships will be considered on an ongoing basis based on community needs, and as part of the school board's planning process when building new schools and undertaking significant renovations, as described in Procedure 570: Child Care Programs in Schools. Establishing child care programs in schools will be guided by Procedure 575: Child Care Programs in Schools.

SECTION 7 Accommodation Strategies

7.0 Accommodation scenarios

A variety of accommodation scenarios for each school group are outlined to address the surplus space in schools due to declining enrolment. Each scenario is described in the following sections and includes details on the current situation as well as proposed options for addressing the concerns.

It is expected that these accommodation scenarios will be implemented in phases, and, together, will form a multi-year plan.

7.1 Pupil accommodation reviews

Before any strategy can be implemented, a pupil accommodation review is required. An accommodation review is a process undertaken by the school board to determine the future of a school or group of schools when decisions regarding consolidation, closure, or program relocation are made. An accommodation review takes into account the needs of all of the students in all schools in the review area and in a particular school group.

The Ministry of Education has recently completed an extensive assessment of the accommodation review process, including consultation with various stakeholders. The <u>Pupil Accommodation Review Guideline</u>, released in March 2015, provides a framework of minimum standards for school boards to use when undertaking pupil accommodation reviews to determine the future of a school or group of schools. This guideline ensures that where a decision is taken by a school board regarding the future of a school, that decision is made with the involvement of an informed local community and is based on a broad range of criteria regarding the quality of the learning experience for students.^o

The Ministry subsequently released a document entitled <u>Guide to Pupil Accommodation Review</u> to help inform parents and guardians about the process that Ontario's school boards undertake when reviewing whether to consolidate or close a school.

The board has recently updated its <u>Policy 15: Student Enrolment/School Capacity: Pupil Accommodation Review</u> and <u>Procedure 570: Community Planning and Partnerships</u> to align with the Ministry of Education *Pupil Accommodation Guideline*.

7.2 School organization models as accommodation strategies

7.2.1 Current model (K-6, K-8 & 9-12)

The following models are currently in place at elementary schools:

- 27 are Kindergarten to Grade 8
- 7 are Kindergarten to Grade 6
- 2 are Kindergarten to Grade 5
- 1 is Grade 4 to 8
- 1 is Kindergarten to Grade 3

All eight secondary schools are operating a Grade 9 to 12 model. In addition, Bayside Secondary School and Moira Secondary School host students from Grade 7 and 8 students from feeder schools.

7.2.2 Grade 7–12 model

One strategy for using the surplus space at secondary schools is to utilize a Grade 7-12 model in place of the Grade 9-12 model currently used at all HPEDSB secondary schools. The Grade 7-12 model not only address surplus space at secondary schools, it also offers improved program benefits to Grade 7 and 8 students.

[°] Ontario Ministry of Education, Pupil Accommodation Review Guideline, March 2015

In this model, Grades 7 and 8 would go to school at a secondary school rather than at an elementary school. This approach would result in secondary schools being Grade 7-12 and elementary schools being Kindergarten to Grade 6.

The board already has some experience with the Grade 7-12 model. Currently Grade 7 and 8 programming is provided at two secondary schools: Bayside Secondary School & Moira Secondary School. Many school boards across the Province have been exploring or moving to a Grade 7-12 secondary model and many school boards in Eastern Ontario already employ this model at some or all of their secondary schools.

While one benefit of moving to this model would be the increase in the utilization of space, additional benefits have been reported by school boards who have implemented the model. For example, there can be positive program implications through mentoring programs and elementary to secondary connections are made. The secondary facility can provide program opportunities or specialized classroom space, such as Science labs that elementary schools might not have. A Grade 7-12 model may also increase student retention from Grade 8 to 9. From a space perspective, it also can provide the board with flexibility and adaptability of space if demographics change or programming needs evolve.

7.2.3 Kindergarten to Grade 12 model

School boards across the Province has also been exploring or moving toward the K-12 model. There are Board's in Eastern Ontario who have implemented this model in new school builds.

7.3 Attendance boundary changes as an accommodation strategy

Attendance boundary changes are another possible accommodation strategy.

Boundary reviews can be made for a variety of reasons, such as the following:

- Opening of a new school and establishing a new boundary and adjusting the boundaries of existing schools in the area;
- Changing the grade structure of an elementary school. This would include changing an elementary school from a Junior Kindergarten to Grade 6 model to a JK to Grade 8model. In secondary schools it can be used for determining the boundaries for programs;
- Balancing enrolment and facilities, where one school may have too many students for its capacity and another may have too few;
- Upon approval by municipalities of new residential development, the area needs to be assigned to a school where capacity exists.

School boundaries are also a key consideration when school closings and/or school consolidations are being proposed.

7.4 Transition process

Upon the completion of a pupil accommodation review, when a decision has been made to consolidate schools, students may be transferred to a different school. It is essential for students to feel welcome at their new school. In these situations, transition plans will be created to make the move to a different school as smooth as possible. The transition plan organizes the transfer of students, program materials, equipment and school memorabilia from the closing school to the receiving school or schools.

Transition plans typically include opportunities for students and parents from the consolidating school(s) to come together, prior to the consolidation, to engage in activities together and to build a renewed sense of community. The transition process is generally planned in consultation with students, families and school staff.

7.5 Disposal of property

Should HPEDSB decide that a closed school is no longer needed for the purposes of the board, the facility can be declared "surplus to the needs of the board". School boards can then proceed to lease or sell the surplus property to other organizations, according to the process required in the *Education Act*.

Where a piece of property is not used for school or administration use, it may be deemed surplus by the Hastings and Prince Edward District School Board of Trustees and sold at fair market value in accordance with the procedures outlined in *Ontario Regulation 444/98* and with the Board's <u>Procedure 580: Real Property Disposal</u>.

In an effort to encourage public properties to remain in the public sphere, school boards are required to first offer their properties to other public sector organizations in priority order (which includes other school boards, municipalities and other levels of government). If the surplus property is not leased or purchased by the public sector, then the property may be offered on the open market.

Upon amendment to this Regulation, the Ministry of Education intends to:

- Double the current surplus property circulation period from 90 days to 180 days, providing listed public entities with 90 days to express interest in the property and an additional 90- days to submit an offer;
- Expand the list of public entities to receive notification of surplus property disposition to include:
 Coterminous School Boards; Entities delivering education services to section 23 students in the
 disposing board's jurisdiction; District Social Services Administration Boards or Consolidated
 Municipal Service Managers; Colleges; Universities; Children's Mental Health Agencies; Local
 Health Integration Networks; Public Health Boards; the province (Crown in Right of Ontario); Lower Tier Municipalities; Upper-Tier Municipalities; Local Service Boards; First Nation and Métis
 Organizations; and the federal government (Crown in Right of Canada);
- Have all board-to-board sales be at fair market value:
- Introduce a maximum rate a school board can charge for leasing a school to another board; and
- Clarify that private education providers are not eligible to lease surplus property unless the property
 has first been circulated to listed public entities.^p

^p Ontario Ministry of Education, <u>Memorandum to Directors of Education, 2016:B06, Grants for Student Needs changes for 2015-16 and 2016-17, March 2016.</u>

7.6 Bayside Secondary School and Trenton High School

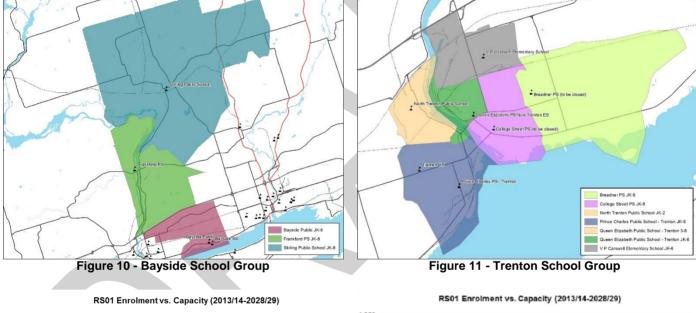

7.6.1 Current situation

The Bayside and Trenton school groups are adjacent to each other, with Trenton to the west and Bayside to the east (Figures 10 and 11). The elementary feeder schools to each secondary school are shown in Table 5 below.

Table 5 - Bayside and Trenton Area Elementary Feeder Schools

| Bayside Secondary School (9-12) | Trenton High School (9-12) |
|---------------------------------|---|
| Bayside Public School (K-8) | Breadner Elementary School (K-8) (closing 2017) |
| Frankford Public School (K-8) | College Street Public School (K-8) (closing 2017) |
| Stirling Public School (K-8) | North Trenton Public School (K-5) |
| | Prince Charles Public School (Trenton) (K-8) |
| | V. P. Carswell Elementary School (K-8) |
| | New Elementary School (opening 2017) (K-8) |

Figures 12 and 13 illustrate that the combined capacity of the two secondary schools, Trenton High School and Bayside Secondary School, greatly exceed the current and projected enrolment. Larger figures can be found in Appendix E with additional data.

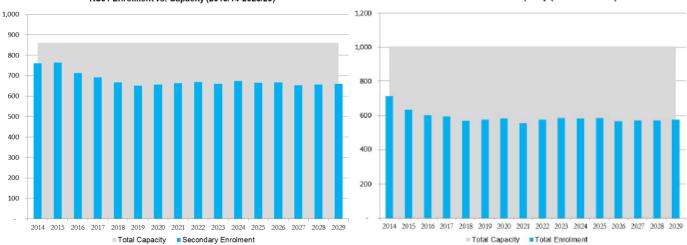

Figure 12 - Bayside SS Enrolment vs. Capacity

Figure 13 - Trenton HS Enrolment vs. Capacity

In addition to a combined surplus capacity of 414 student places, each school requires significant investment to meet renewal needs. Together, the renewal needs of both schools over the next 10 years are in excess of \$25 million, as shown in Table 6.

Table 6 - Summary Capacity, Enrolment, and Renewal of Bayside SS and Trenton HS

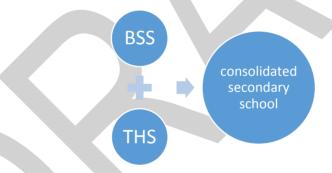

| 2015-16 Year | Bayside SS | Trenton HS | Total |
|--------------------------|------------|------------|---------|
| Capacity (OTG) | 861 | 1005 | 1866 |
| Enrolment | 851 | 601 | 1452 |
| Surplus Capacity | 10 | 404 | 414 |
| Utilization | 99% | 60% | 78% |
| Renewal Needs | \$13.7M | \$11.8M | \$25.5M |
| Facility Condition Index | 57% | 43% | - |

It should be noted that the Bayside Secondary School enrolment includes 139 elementary students from Bayside Public School Grades 7 and 8. If these elementary students are removed from Bayside Secondary School, then the combined surplus capacity increases to 553 and the combined utilization decreases to 71%.

Consideration would have to be given to the French Immersion programming that is currently housed at Bayside Secondary School.

7.6.2 Scenario: Consolidate Bayside Secondary School and Trenton High School into one secondary school

The secondary enrolment needs of both Bayside and Trenton School Groups can be met by consolidation of the two secondary school student populations into a single facility located in either the Bayside or Trenton area. This consolidated secondary school could be located at either the site of the existing Trenton High School or the site of the existing Bayside SS or at a new site that is located in the same general area that would serve the student populations.

Considerations

- (a) If the consolidated secondary school is to be located at the Bayside Secondary School site, then either construction of an addition to accommodate the increased number of secondary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (b) If the consolidated secondary school is to be located at the Trenton High School site, then either construction of an addition to accommodate the increased number of secondary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option
- (c) If the consolidated secondary school is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (d) If Bayside Secondary School is closed, then the French Immersion program will need to be relocated.

- (e) If a Grade 7-12 model is adopted for the consolidated secondary school, then the size of the addition or new school would need to be increased to accommodate the Grade 7 and 8 students as well as the Grade 9-12 secondary students.
- (f) Consideration would have to be given to amendments to boundaries in the Bayside School Group.
- (g) Consideration would have to be given to transportation for students.

7.7 Bayside elementary schools

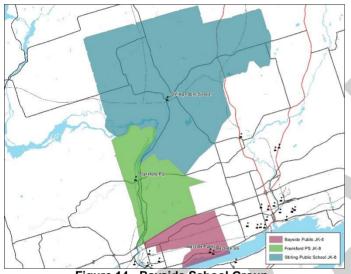

7.7.1 Current situation

There are three elementary schools in the Bayside School Group as shown in Figure 14. The list of Bayside elementary schools is shown in Table 7 below.

Table 7 - Bayside Elementary Schools

| 2015-2016 Year |
|-------------------------------|
| Bayside Public School (K-8) |
| Frankford Public School (K-8) |
| Stirling Public School (K-8) |

Figure 15 illustrates that the combined capacity of the three elementary schools provides a utilization rate of over 90% based on projected enrolments. Larger figures can be found in Appendix E with additional data.

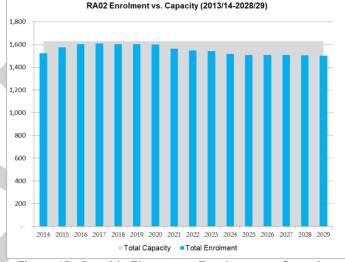

Figure 14 - Bayside School Group

Figure 15 - Bayside Elementary Enrolment vs. Capacity

A small combined surplus capacity of approximately 30 students exists. Three of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years is in excess of \$8 million, as shown in Table 8.

Table 8 - Summary Capacity, Enrolment, and Renewal of Bayside Elementary Schools

| 2015-16 Year | Bayside PS | Frankford PS | Stirling PS | Total |
|--------------------------|------------|--------------|-------------|--------|
| Capacity (OTG) | 383 | 418 | 691 | 1492 |
| Enrolment | 414 | 349 | 700 | 1463 |
| Surplus Capacity | -31 | 69 | -9 | 29 |
| Utilization | 108% | 83% | 99% | 98% |
| Renewal Needs | \$4.3M | \$4.2M | \$0 | \$8.5M |
| Facility Condition Index | 68% | 49% | 0% | - |

The Bayside Public School enrolment does not includes 139 elementary students in grades 7 and 8 who are located at Bayside Secondary School. If these elementary students are removed from Bayside Secondary School and included in the Bayside Public School enrolment, then the elementary enrolment at Bayside Public School increases to 553 and the utilization increases to 144%, resulting in the requirement for an additional 170 student places at Bayside Public School.

Consideration would have to be given to the French Immersion programming that is currently housed at Bayside Public School.

7.7.2 Scenario: New build or addition to Bayside Public School

The elementary enrolment needs of the Bayside School Group are met by the existing three elementary schools. However, Bayside Public School has high renewal needs and a requirement for additional student places.

Considerations

- (a) If the Grade 7 and 8 students located at Bayside Secondary School are returned to Bayside Public School, then construction of an addition is required. Given the significant renewal needs at Bayside Public School, a new school to replace Bayside Public School would be the preferred option.
- (b) If a Grade 7-12 model is adopted for the Bayside School Group, then the elementary enrolment will decrease by approximately 350 students, changing the total enrolment from approximately 1600 to 1250 students. Adoption of such a model does not change the scenario, but will reduce the requirement for an addition at Bayside Public School and will decrease the utilization of Frankford Public School and Stirling Public School due to an increase in surplus capacity.

7.7.3 Scenario: Consolidate Bayside Public School, amend Trenton and Centennial attendance boundaries

The elementary enrolment needs of the Bayside School Group are met by the existing three elementary schools. However, Bayside Public School has high renewal needs and a requirement for additional student places. Bayside PS is also a site for a significant French Immersion program that has approximately 340 students in Grades 4 to 8.

Considerations

- (a) If Bayside Public School is closed, then the Bayside Public School students can be accommodated in the Trenton and Centennial school group elementary schools. The Trenton elementary schools have a surplus capacity of approximately 180 students and the Centennial elementary schools have a surplus capacity of approximately 250 students. Attendance boundary changes for Trenton and Centennial school groups would be required.
- (b) If Bayside Public School is closed, then the French Immersion program will need to be relocated. If the French Immersion program were relocated to a Belleville and/or Trenton School Group, utilization in the receiving school group would increase.
- (c) If a Grade 7-12 model is adopted for the Trenton, Bayside, and Centennial school group, then the elementary enrolment will decrease by approximately 350 students, changing the total enrolment from approximately 1600 to 1250 students. Adoption of a Grade 7-12 model in the Trenton, Bayside, and Centennial school groups does not change the scenario, but will decrease the utilization of elementary schools due to an increase in surplus capacity.
- (d) Consideration would have to be given to transportation for students.

7.7.4 Scenario: K-12 School on Bayside property

Bayside Pubic School has renewal needs of \$4.3 million and a capacity of 383, while Bayside Secondary School has renewal needs of \$13.7 million and a capacity of 851 student places.

If a K-12 model is adopted for Bayside School Group, an addition on either building or the construction of a new school would be required.

- (a) If a boundary change is done with the Trenton or Centennial School Group, a smaller addition or smaller school would be required.
- (b) The number of surplus spaces at Trenton High School would still need to be considered.
- (c) If Bayside Secondary School were closed as a secondary school, the viability of maintaining elementary on the site would have to be reviewed.

7.8 Trenton High School and Bayside Secondary School

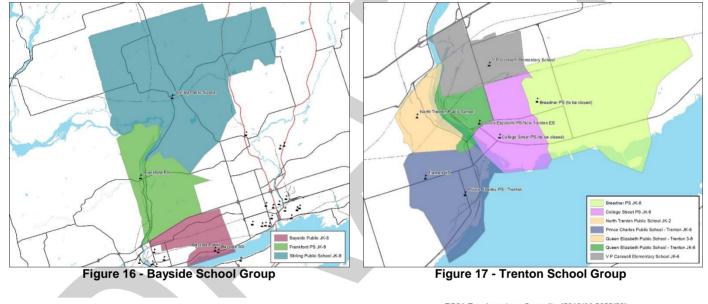

7.8.1 Current situation

The Bayside and Trenton school groups are adjacent to each other, with Trenton to the west and Bayside to the east (Figures 16 and 17). The elementary feeder schools to each secondary school are shown in Table 9 below.

Table 9 - Bayside and Trenton Area Elementary Feeder Schools

| Bayside Secondary School (9-12) | Trenton High School (9-12) |
|---------------------------------|---|
| Bayside Public School (K-8) | Breadner Elementary School (K-8) (closing 2017) |
| Frankford Public School (K-8) | College Street Public School (K-8) (closing 2017) |
| Stirling Public School (K-8) | North Trenton Public School (K-5) |
| | Prince Charles Public School (Trenton) (K-8) |
| | V. P. Carswell Elementary School (K-8) |
| | New Elementary School (opening 2017) (K-8) |

Figures 18 and 19 illustrate that the combined capacity of the two secondary schools, Trenton High School and Bayside Secondary School, greatly exceed the current and projected enrolment. Larger figures can be found in Appendix E with additional data.

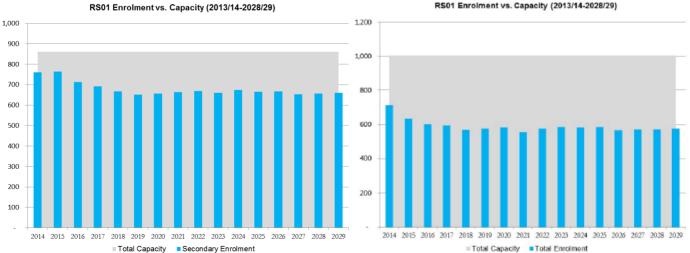

Figure 18 - Bayside SS Enrolment vs. Capacity

Figure 19 - Trenton HS Enrolment vs. Capacity

In addition to a combined surplus capacity of 414 student places, each school requires significant investment to meet renewal needs. Together, the renewal needs of both schools over the next 10 years are in excess of \$25 million, as shown in Table 10.

Table 10 - Summary Capacity, Enrolment, and Renewal of Bayside SS and Trenton HS

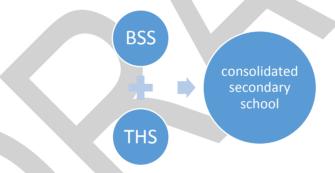

| 2015-16 Year | Bayside SS | Trenton HS | Total |
|--------------------------|------------|------------|---------|
| Capacity (OTG) | 861 | 1005 | 1866 |
| Enrolment | 851 | 601 | 1452 |
| Surplus Capacity | 10 | 404 | 414 |
| Utilization | 99% | 60% | 78% |
| Renewal Needs | \$13.7M | \$11.8M | \$25.5M |
| Facility Condition Index | 57% | 43% | - |

It should be noted that the Bayside Secondary School enrolment includes 139 elementary students from Bayside Public School Grades 7 and 8. If these elementary students are removed from Bayside Secondary School, then the combined surplus capacity increases to 553 and the combined utilization decreases to 71%.

Consideration would have to be given to the French Immersion programming that is currently housed at Bayside Secondary School.

7.8.2 Scenario: Consolidate Bayside Secondary School and Trenton High School into one secondary school

The secondary enrolment needs of both Bayside and Trenton School Groups can be met by consolidation of the two secondary school student populations into a single facility located in either the Bayside or Trenton area. This consolidated secondary school could be located at either the site of the existing Trenton High School or the site of the existing Bayside SS or at a new site that is located in the same general area that would serve the student populations.

- (a) If the consolidated secondary school is to be located at the Trenton High School site, then either construction of an addition to accommodate the increased number of secondary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (b) If the consolidated secondary school is to be located at the Bayside Secondary School site, then either construction of an addition to accommodate the increased number of secondary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (c) If the consolidated secondary school is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (d) If Bayside Secondary School is closed, then the French Immersion program will need to be relocated.

- (e) If a Grade 7-12 model is adopted for the consolidated secondary school, then the size of the addition or new school would need to be increased to accommodate the Grade 7 and 8 students as well as the Grade 9-12 secondary students.
- (f) Consideration would have to be given to amendments to boundaries in the Bayside School Group.
- (g) Consideration would have to be given to transportation for students.

7.9 Trenton elementary schools

7.9.1 Current Situation

Five elementary schools are in the Trenton School Group, as shown in Figure 20. This number will decrease to four when the new Trenton elementary school is completed at the site of the former Queen Elizabeth Public School (Trenton). The new Trenton elementary school will consolidate students from College Street Public School and Breadner Elementary School, after which those two schools will close. This is planned to occur in January 2017. The list of Trenton elementary schools is shown in Table 11 below.

Table 11 - Trenton Elementary Schools

| 2015-2016 Year | 2017-2018 Year (first full year) |
|---|---|
| Breadner Elementary School (K-8) (closing 2017) | New Trenton Elementary School (Unnamed) (K-8) |
| College Street Public School (K-8) (closing 2017) | North Trenton Public School (K-5) |
| North Trenton Public School (K-5) | Prince Charles Public School (Trenton) (K-8) |
| Prince Charles Public School (Trenton) (K-8) | V. P. Carswell Elementary School (K-8) |
| V. P. Carswell Elementary School (K-8) | |

A pupil accommodation review was completed in May 2013 resulting in consolidation of Breadner Elementary School, College Street Public School and Queen Elizabeth School (Trenton) into a new K-8 elementary school on the Queen Elizabeth school site. Consistent with Policy 15: Student Enrolment/School Capacity: Pupil Accommodation, an accommodation review can only occur if it has been no less than five years since the inception of a study of the school by an accommodation review committee.

Figure 21 illustrates that the combined capacity of the four elementary schools (after the new Trenton elementary school is completed) provides a utilization rate of 85 to 90% based on projected enrolments. Larger figures can be found in Appendix E with additional data.

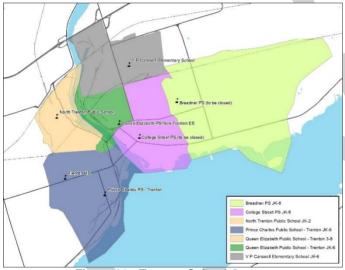

Figure 20 - Trenton School Group

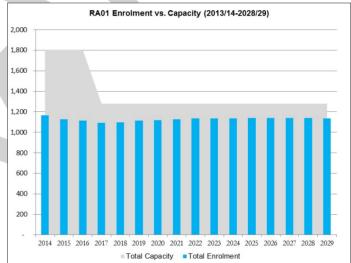

Figure 21 - Trenton Elementary Enrolment vs. Capacity

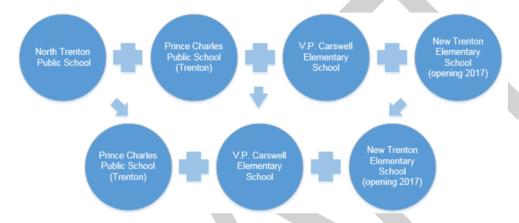

A surplus capacity of 182 students exists, as shown in Table 12. Three of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years is in excess of \$10 million, as also shown in Table 12.

Table 12 - Summary Capacity, Enrolment, and Renewal of Trenton Elementary Schools

| 2017-18 Year | New Trenton Elementary School (Unnamed) | North Trenton PS | Prince Charles PS (Trenton) | V.P. Carswell ES | Total |
|--------------------------|--|---------------------|--------------------------------|---------------------|---------|
| Capacity (OTG) | 562 | 141 | 386 | 190 | 1279 |
| Enrolment | 569 | 59 | 327 | 142 | 1097 |
| Surplus Capacity | -7 | 82 | 59 | 48 | 182 |
| Utilization | 101% | 42% | 85% | 75% | 86% |
| Renewal Needs | \$0 | \$1.5M | \$6.1M | \$2.8M | \$10.4M |
| Facility Condition Index | 0% | 40% | 74% | 53% | - |

7.9.2 Scenario: Consolidate four elementary schools into three elementary schools

The elementary enrolment needs of the Trenton School Group can be met by consolidation of the four elementary schools into three facilities.

Considerations

- (a) If North Trenton Public School is closed, then attendance boundary changes for Prince Charles Public School (Trenton) and V.P. Carswell Elementary School will allow those two schools to accommodate the students from North Trenton Public School. In this case, construction of an addition is not required. Given the significant renewal needs at Prince Charles Public School (Trenton), a new school at that site would be the preferred option.
- (b) If a Grade 7-12 model is adopted for the Trenton School Group, then the elementary enrolment will decrease by approximately 175 students, changing the total enrolment from approximately 1100 to just over 900 students. Adoption of such a model does not change the scenario, but will reduce the utilization of the schools due to an increase in surplus capacity.
- (c) Consideration would have to be given to transportation for students.

7.9.3 Scenario: K-12 on Trenton High School Property

The renewal needs for Trenton High School are \$11.8 million with a capacity of 1005 student places. If a K-12 model is adopted for the Trenton School group, then renovations would be required to suit the intended purpose of the building (i.e. elementary spaces in the building), or the construction of a new facility may be required.

7.10 Belleville secondary schools

7.10.1 Current situation

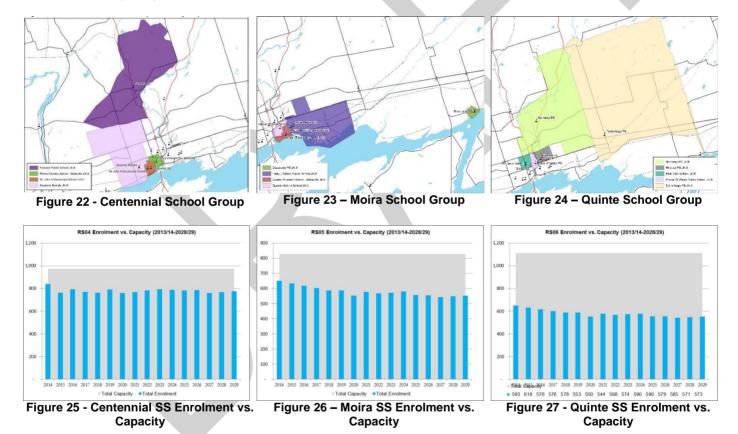

Three school groups and associated secondary schools are in the Belleville area: Centennial to the west, Quinte in the centre, and Moira to the east, as shown in Figures 22 to 24. The elementary feeder schools to each secondary school are shown in Table 13 below.

Table 13 - Belleville Area Elementary Feeder Schools

| Centennial Secondary School (9-12) | Moira Secondary School (9-12) | Quinte Secondary School (9-12) |
|--|---|-------------------------------------|
| Foxboro Public School (K-8) | Deseronto Public School (K-8) | Harmony Public School (K-8) |
| Prince Charles School (Belleville) (K-8) | Harry J Clarke Public School (K-8) | Hillcrest School (K-5) |
| Sir John A Macdonald School (K-8) | Queen Elizabeth School (Belleville) (K-8) | Park Dale School (K-8) |
| Susanna Moodie Elementary School (K-8) | Queen Victoria School (K-6) | Prince of Wales Public School (K-8) |
| | | Tyendinaga Public School (K-8) |

Although Kente Public School is not within the Centennial School Group, each year, approximately 25 Grade 8 students attend Centennial Secondary School for Grade 9.

Figures 25 to 27 illustrate that the combined capacity of the three secondary schools, Centennial Secondary School, Quinte Secondary School, and Moira Secondary School, greatly exceed the current and projected enrolment. Larger figures can be found in Appendix E with additional data.

In addition to a combined surplus capacity of 829 student places, each school requires significant investment to meet renewal needs. Together, the renewal needs of the schools over the next 10 years is in excess of \$38 million, as shown in Table 14.

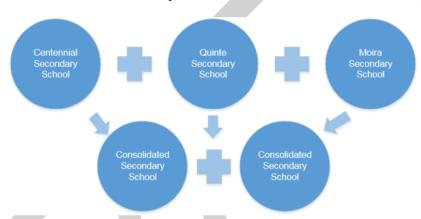

Table 14 - Summary Capacity, Enrolment, and Renewal of Belleville Secondary Schools

| 2015-16 Year | Centennial SS | Moira SS | Quinte SS | Total |
|--------------------------|---------------|----------|-----------|---------|
| Capacity (OTG) | 975 | 828 | 1113 | 2916 |
| Enrolment | 793 | 718 | 576 | 2087 |
| Surplus Capacity | 182 | 110 | 537 | 829 |
| Utilization | 81% | 87% | 52% | 72% |
| Renewal Needs | \$13.4M | \$17.3M | \$7.7M | \$38.4M |
| Facility Condition Index | 49% | 65% | 25% | - |

It should be noted that the Moira Secondary School enrolment includes 100 elementary students from Harry J. Clarke Public School Grades 7 and 8. If these elementary students are removed from Moira Secondary School, then the combined surplus capacity increases to 929 and the combined utilization decreases to 68%.

Moira Secondary School hosts the Destinations and International Baccalaureate Programme, and is programming that could be relocated.

7.10.2 Scenario: Consolidate Centennial Secondary School, Moira Secondary School and Quinte Secondary School into two secondary schools

7.10.2.1 The secondary enrolment needs of the three Belleville area school groups can be met by consolidation of the three secondary school student populations into two facilities in Belleville. It is expected that the consolidated secondary schools would be located at the sites of the existing secondary schools.

- (a) If the Belleville area secondary student population is consolidated at Centennial Secondary School and Quinte Secondary School such that each school is more fully utilized, then sufficient capacity exists at these two schools to accommodate the enlarged student populations without requiring construction of an addition. In this case, attendance boundary changes would be required for all three school groups. Even though sufficient capacity exists at Centennial Secondary School and Quinte Secondary School for this purpose, the high renewal costs may make construction of a new addition or facility favourable.
- (b) If a Grade 7-12 model is adopted for the consolidated secondary schools, then construction of an addition at one or both schools would be needed to accommodate the Grade 7 and 8 students as well as the Grade 9-12 secondary students.
- (c) Consideration would have to be given to transportation for students.

7.10.2.2 The secondary enrolment needs of the three Belleville area school groups can be met by consolidation of Quinte Secondary School and Moira Secondary School student populations into a single facility located in the centre to east-side of Belleville while making minor changes to the attendance boundary of the Centennial School Group. It is expected that the consolidated secondary school would be located at the site of either Quinte Secondary School or Moira Secondary School.

- (a) If the Quinte and Moira secondary student population is consolidated at Quinte Secondary School, then construction of a small addition to accommodate the increased number of secondary students or construction of a new school would be required.
- (b) If the Quinte and Moira secondary student population is consolidated at Moira Secondary School, then construction of a larger addition to accommodate the increased number of secondary students or construction of a new school would be required. Moira Secondary School is not currently accessible (i.e. does not have elevators). Given the significant renewal needs, a new school would be the preferred option.
- (c) If a Grade 7-12 model is adopted for the consolidated secondary school, then the size of the addition would need to be increased to accommodate the Grade 7 and 8 students as well as the Grade 9-12 secondary students.
- (d) Consideration would have to be given to transportation for students.

7.11 Centennial elementary schools

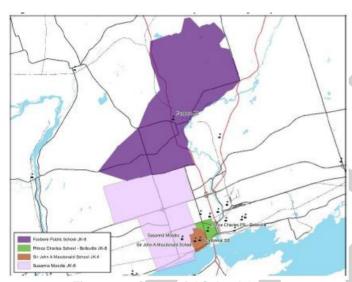

7.11.1 Current situation

Four elementary schools are in the Centennial School Group, as shown in Figure 28. The list of Centennial elementary schools is shown in Table15 below.

Table 15 - Centennial Elementary Schools

| rable to Germannan Elementary German |
|--|
| 2015-2016 Year |
| Foxboro Public School (K-8) |
| Prince Charles School (Belleville) (K-8) |
| Sir John A. Macdonald School (K-8) |
| Susanna Moodie Elementary School (K-8) |

Figure 29 illustrates that the combined capacity of the four elementary schools provides a utilization rate of 80 to 85% based on projected enrolments. Larger Figures can be found in Appendix E with additional data.

■Total Capacity ■Total Enrolment

Figure 28 - Centennial School Group

Figure 29 - Centennial Elementary Enrolment vs. Capacity

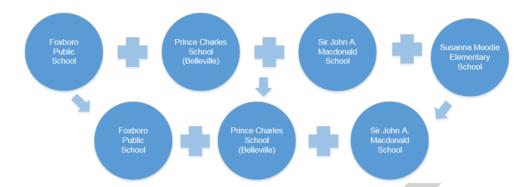

A surplus capacity of 250 students exists. Three of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years is in excess of \$11 million, as shown in Table 16.

Table 16 - Summary Capacity, Enrolment, and Renewal of Centennial Elementary Schools

| 2015-2016 Year | Foxboro PS | Prince Charles School (Belleville) | Sir John A. Macdonald School | Susanna Moodie ES | Total |
|--------------------------|------------|--|------------------------------------|----------------------|---------|
| Capacity (OTG) | 354 | 383 | 315 | 343 | 1395 |
| Enrolment | 332 | 313 | 296 | 204 | 1145 |
| Surplus Capacity | 22 | 70 | 19 | 139 | 250 |
| Utilization | 94% | 82% | 94% | 59% | 82% |
| Renewal Needs | \$1.5M | \$3.7M | \$2.7M | \$3.7M | \$11.6M |
| Facility Condition Index | 23% | 45% | 38% | 49% | = |

7.11.2 Scenario: Consolidate four elementary schools into three elementary schools

The elementary enrolment needs of the Centennial School Group can be met by consolidation of the four elementary school student populations into three facilities. It is expected that the consolidated elementary schools would be located at the sites of the existing elementary schools.

- (a) If the Centennial School Group elementary student population is consolidated at Foxboro Public School, Prince Charles School (Belleville), and Sir John A. Macdonald School such that each school is more fully utilized, then construction of one or more additions may be required. Attendance boundary changes for all elementary schools within the Centennial School Group would be required.
- (b) If a Grade 7-12 model is adopted for the Centennial School Group, then the elementary enrolment will decrease by approximately 190 students, changing the total enrolment from approximately 1150 to 960 students. Adoption of such a model does not change the scenario, but will remove the requirement to construct additions due to the fact that there is sufficient capacity within the three schools for the consolidated student population.
- (c) If the Bayside Public School students are relocated to the Centennial School Group, utilization of schools would increase.
- (d) Consideration would have to be given to transportation for students.

7.12 Moira elementary schools

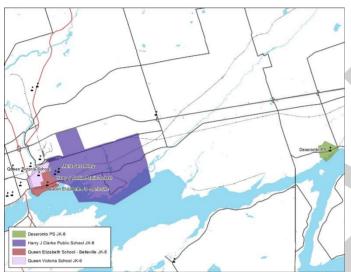

7.12.1 Current situation

Four elementary schools are in the Moira School Group, as shown in Figure 30. The list of Moira elementary schools is shown in Table 17 below.

Table 17 - Moira Elementary Schools

| 2015-2016 Year |
|---|
| Deseronto Public School (K-8) |
| Harry J Clarke Public School (K-8) |
| Queen Elizabeth School (Belleville) (K-8) |
| Queen Victoria School (K-6) |

Figure 31 illustrates that the combined capacity of the five elementary schools provides a utilization rate of 70 to 75% based on projected enrolments. Larger figures can be found in Appendix E with additional data.

RA05 Enrolment vs. Capacity (2013/14-2028/29)

Total Capacity Total Enrolment

Figure 30 - Moira School Group

Figure 31 - Moira Elementary Enrolment vs. Capacity

A surplus capacity of 426 students exists. Three of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next ten years are approximately \$18 million as shown in Table 18.

Table 18 - Summary Capacity, Enrolment, and Renewal of Moira Elementary Schools

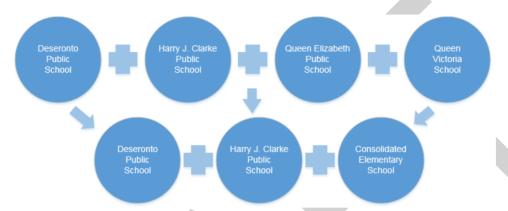

| 2015-16 Year | Deseronto PS | Harry J Clarke PS | Queen Elizabeth School (Belleville) | Queen Victoria School | Total |
|--------------------------|--------------|----------------------|---|--------------------------|---------|
| Capacity (OTG) | 239 | 697 | 265 | 423 | 1624 |
| Enrolment | 142 | 640 | 181 | 235 | 1198 |
| Surplus Capacity | 97 | 57 | 84 | 188 | 426 |
| Utilization | 59% | 92% | 68% | 56% | 74% |
| Renewal Needs | \$2.6M | \$5.6M | \$3.4M | \$6.3M | \$17.9M |
| Facility Condition Index | 44% | 50% | 55% | 72% | - |

It should be noted that the Harry J. Clarke Public School enrolment does not include 100 elementary students in Grades 7 and 8 that are located at Moira Secondary School. If these elementary students are removed from Moira Secondary School and included in the Harry J. Clarke Public School enrolment, then the elementary enrolment at Harry J. Clarke Public School increases to 740 and the utilization increases to 106%, resulting in the requirement for an additional 43 student places at Harry J. Clarke Public School.

7.12.2 Scenario: Consolidate four elementary schools into three elementary schools

The elementary enrolment needs of the Moira School Group can be met by consolidation of the four elementary school student populations into three facilities. It is expected that the consolidated elementary schools would be located at the sites of the existing elementary schools.

The elementary enrolment needs of Queen Elizabeth School (Belleville) and Queen Victoria School can be met by consolidation into a single school located in Belleville. This consolidated elementary school could be located at either the site of the existing Queen Elizabeth School (Belleville) or the site of the existing Queen Victoria School or at a site that is located in the same general area. Attendance boundary changes for these elementary schools would be required.

- (a) If the consolidated elementary school is to be located at the Queen Elizabeth School (Belleville) site, then either construction of an addition to accommodate the increased number of elementary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (b) If the consolidated secondary school is to be located at the Queen Victoria School site, then an addition is not required as the school has sufficient capacity to accommodate the increased number of elementary students. However, given the significant renewal needs, construction of a new school would be the preferred option.
- (c) If the consolidated elementary school is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (d) If a Grade 7-12 model is adopted for the Moira School Group, then the elementary enrolment will decrease by approximately 190 students, changing the total enrolment from approximately 1200 to 1000 students. Adoption of such a model does not change the scenario, but will reduce the required size of the consolidated school and will decrease the utilization of Harry J. Clarke Public School and Deseronto Public School due to an increase in surplus capacity.
- (e) Consideration would have to be given to transportation for students.

7.13 Quinte elementary schools

7.13.1 Current situation

Five elementary schools are in the Quinte School Group, as shown in Figure 32. The list of Quinte elementary schools is shown in Table 19 below.

Table 19 - Quinte Elementary Schools

| 2015-16 Year |
|-------------------------------------|
| Harmony Public School (K-8) |
| Hillcrest School (K-5) |
| Park Dale School (K-8) |
| Prince of Wales Public School (K-8) |
| Tyendinaga Public School (K-8) |

Figure 33 illustrates that the combined capacity of the five elementary schools provides a utilization rate of 80 to 90% based on projected enrolments. Larger figures can be found in Appendix E with additional data.

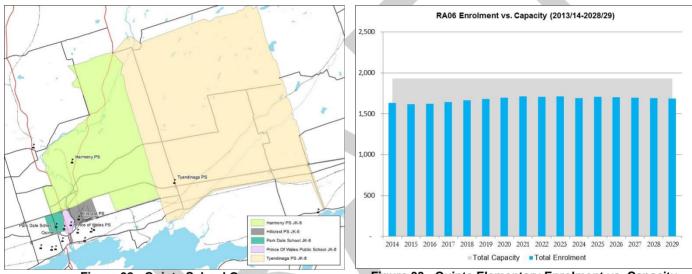

Figure 32 - Quinte School Group

Figure 33 - Quinte Elementary Enrolment vs. Capacity

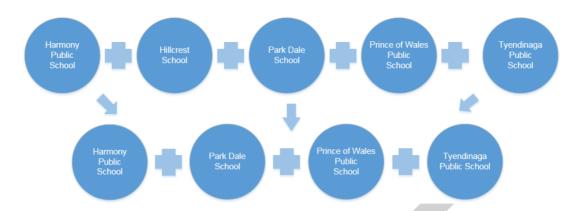

A surplus capacity of 311 students exists. Three of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years is in excess of \$16 million, as shown in Table 20.

Table 20 - Summary Capacity, Enrolment, and Renewal of Quinte Elementary Schools

| 2015-2016 Year | Harmony PS | Hillcrest | Park Dale | Prince of | Tyendinaga | Total |
|--------------------------|------------|-----------|-----------|-----------|------------|---------|
| | | School | School | Wales PS | PS | |
| Capacity (OTG) | 614 | 168 | 409 | 378 | 363 | 1932 |
| Enrolment | 536 | 97 | 315 | 326 | 347 | 1621 |
| Surplus Capacity | 78 | 71 | 94 | 52 | 16 | 311 |
| Utilization | 87% | 58% | 77% | 86% | 96% | 84% |
| Renewal Needs | \$0M | \$2.8M | \$5.9M | \$3.9M | \$3.5M | \$16.1M |
| Facility Condition Index | 0% | 61% | 69% | 47% | 54% | - |

7.13.2 Scenario: Consolidate five elementary schools into four elementary schools

The elementary enrolment needs of the Quinte School Group can be met by consolidation of the five elementary school student populations into four facilities. It is expected that the consolidated elementary schools would be located at the sites of the existing elementary schools.

Considerations

- (a) If the elementary student populations of Hillcrest School, Park Dale School, and Prince of Wales Public School are consolidated at Park Dale School and Prince of Wales Public School, then no new additions are needed as Park Dale School and Prince of Wales Public School have sufficient capacity. Attendance boundary changes for these elementary schools would be required.
- (b) If a Grade 7-12 model is adopted for the Quinte School Group, then the elementary enrolment will decrease by approximately 300 students, changing the total enrolment from approximately 1600 to 1300 students. Adoption of a Grade 7-12 model in the Quinte school group does not change the scenario, but will decrease the utilization of elementary schools due to an increase in surplus capacity.
- (c) Consideration would have to be given to transportation for students.

7.13.3 Scenario: Grade 7-12 Model for Quinte School Group

Considerations

If a Grade 7-12 model is adopted for the Quinte School Group, then the elementary enrolment will decrease by approximately 300 students, changing the total enrolment from approximately 1600 to 1300 students. In this case, the combined elementary enrolments of Hillcrest School, Park Dale School, and Prince of Wales Public School will decrease to approximately 600 students.

- (a) If a Grade 7-12 model is adopted, the elementary enrolment needs of Hillcrest School, Park Dale School, and Prince of Wales Public School can be met by consolidation into a single school located in Belleville. This consolidated elementary school could be located at either the site of the existing Park Dale School or the site of the existing Prince of Wales Public School or at a site that is located in the same general area. Attendance boundary changes for these elementary schools would be required.
- (b) If the consolidated elementary school is to be located at the Park Dale School site, then either construction of an addition to accommodate the increased number of elementary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (c) If the consolidated elementary school is to be located at the Prince of Wales Public School site, then either construction of an addition to accommodate the increased number of elementary students or construction of a new school would be required. Given the significant renewal needs, a new school would be the preferred option.
- (d) If the consolidated elementary school is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (e) Consideration would have to be given to transportation for students.

7.14 Centre Hastings Secondary School

7.14.1 Current situation

Centre Hastings is served by a single secondary school (Grade 9 -12) - Centre Hasting Secondary School located in Madoc. The Centre Hastings School Group elementary schools that feed Centre Hastings High School are shown below. There are five elementary schools in the Centre Hastings School Group (Figure 34); however, this number will decrease to four when the new addition at Marmora Senior Public School is completed. The enlarged Marmora Senior Public School will consolidate students from Earl Prentice Public School and Marmora Senior Public School, after which Earl Prentice Public School will close. This is planned to occur in September 2017. The list of Centre Hastings elementary schools is shown in Table 21 below.

Table 21 - Centre Hastings Secondary School Feeder Schools

| 2015-2016 Year | 2017-2018 Year |
|------------------------------------|------------------------------------|
| Earl Prentice Public School (K-3) | Madoc Public School (K-8) |
| Madoc Public School (K-8) | Madoc Township Public School (K-6) |
| Madoc Township Public School (K-6) | New Marmora Public School (K-8) |
| Marmora Senior Public School (4-8) | Tweed Elementary School (K-8) |
| Tweed Elementary School (K-8) | |

Figure 35 illustrates that the capacity of Centre Hastings Secondary School greatly exceeds the current and projected enrolment. Larger figures can be found in Appendix E with additional data.

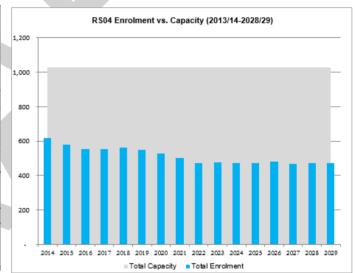

Figure 34 - Centre Hastings School Group

Figure 35 - Centre Hastings Elementary Enrolment vs. Capacity

In addition to a surplus capacity of 473 student places, the school requires significant investment to meet renewal needs which exceed \$17.4 million over the next 10 years.

Table 22 - Summary Capacity, Enrolment, and Renewal of Centre Hastings Secondary School

| 2015-16 Year | Centre Hastings SS |
|--------------------------|--------------------|
| Capacity (OTG) | 1026 |
| Enrolment | 553 |
| Surplus Capacity | 473 |
| Utilization | 54% |
| Renewal Needs | \$17.4M |
| Facility Condition Index | 59% |

7.14.2 Scenario: Grade 7-12 Model Centre Hastings School Group

The secondary needs of the Centre Hastings School Group are met by Centre Hastings Secondary School. However, there is poor utilization of the school with a significant amount of surplus space.

If a Grade 7-12 model is adopted for the Centre Hastings School Group, then the enrolment at Centre Hastings Secondary School will increase by approximately 150 students and school utilization would increase by 15% to approximately 69%.

Consideration would have to be given to transportation for students.

7.14.3 Scenario: Amend Centre Hastings School Group and Bayside School Group boundaries Consideration would have to be given to amendments to school group boundaries.

Consideration would have to be given to transportation for students.

7.15 Centre Hastings elementary schools

7.15.1 Current situation

Five elementary schools are in the Centre Hastings School Group; however, this number will decrease to four when the new addition at Marmora Senior Public School is completed (Figure 36). The enlarged Marmora Senior Public School will consolidate students from Earl Prentice Public School and Marmora Senior Public School, after which Earl Prentice Public School will close. This is planned to occur in September 2017. The list of Centre Hastings elementary schools is shown in Table 23 below.

Table 23 - Centre Hastings Elementary Schools

| 2015-2016 Year | 2017-2018 Year |
|---|------------------------------------|
| Earl Prentice Public School (closing) (K-3) | Madoc Public School (K-8) |
| Madoc Public School (K-8) | Madoc Township Public School (K-6) |
| Madoc Township Public School (K-6) | Marmora Senior Public School (K-8) |
| Marmora Senior Public School (4-8) | Tweed Elementary School (K-8) |
| Tweed Elementary School (K-8) | |

Figure 37 illustrates that the combined capacity of the four elementary schools (after the new addition at Marmora Senior Public School is completed) provides a utilization rate of 85 to 90% based on projected enrolments. Larger figures can be found in Appendix E with additional data.

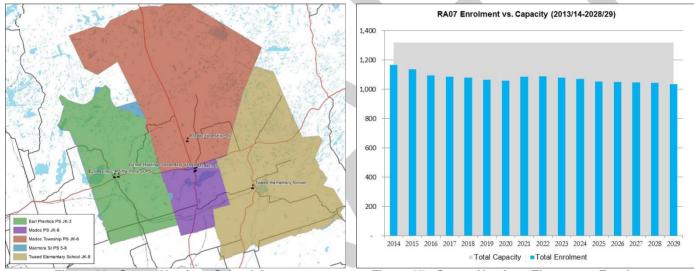

Figure 36 - Centre Hastings School Group

Figure 37 - Centre Hastings Elementary Enrolment vs. Capacity

A combined surplus capacity of 147 students exists. One of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years are in excess of \$7 million, as shown in Table 24.

Table 24 - Summary Capacity, Enrolment, and Renewal of Centre Hastings Elementary Schools 2015-2016

| 2015-2016 Year | Earl Prentice PS | Madoc PS | Madoc Township PS | Marmora Senior PS (current) | Tweed ES | Total |

| Facility Condition Index | 52% | 27% | 35% | 0% | - |

7.15.2 Scenario: Consolidation of four elementary schools into three elementary schools

The elementary enrolment needs of the Centre Hastings School Group can be met by consolidation of the four elementary school student populations into three facilities. It is expected that the consolidated elementary schools would be located at the site of an existing elementary school.

The elementary enrolment needs of Madoc Public School and Madoc Township Public School can be met by consolidation into a single school located in Madoc. This consolidated elementary school could be located at either the site of the existing Madoc Public School or at a site that is located in the same general area.

- (a) If the consolidated elementary school is to be located at the Madoc Public School site, then either construction of an addition to accommodate the increased number of elementary students or construction of a new school would be required. The current renewal need of Madoc Public School are \$4.4 million.
- (b) If the consolidated elementary school is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (c) If a Grade 7-12 model is adopted for the Centre Hastings School Group, then the elementary total enrolment will decrease by approximately 150 students, changing the total enrolment from approximately 1095 to 945 students. Adoption of such a model does not change the scenario, but will reduce the required size of the consolidated school and will decrease the utilization of Marmora Senior Public School and Tweed Elementary School schools.
- (d) Consideration would have to be given to transportation for students.

7.16 North Hastings Secondary School

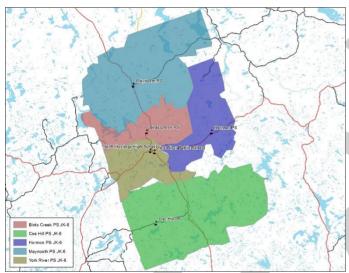

7.16.1 Current situation

North Hastings is served by a single secondary school (Grade9 -12) – North Hastings High School located in Bancroft. The North Hastings School Group elementary schools that feed North Hastings High School are shown below in Table 26 and Figure 38.

Table 26 - North Hastings Elementary Feeder Schools

| North Hastings High School |
|----------------------------------|
| Bird's Creek Public School (K-6) |
| Coe Hill School (K-6) |
| Hermon Public School (K-6) |
| Maynooth Public School (K-6) |
| York River Public School (K-8) |

Figure 39 illustrates that the capacity of North Hastings High School greatly exceeds the current and projected enrolment. Larger Figures can be found in Appendix E with additional data.

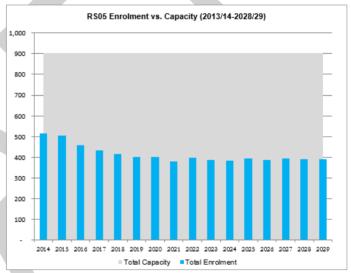

Figure 38 - North Hastings School Group

Figure 39 - North Hasting HS Enrolment vs. Capacity

In addition to a surplus capacity of 446 student places, the school requires significant investment to meet renewal needs which are \$24.7 million, as shown in Table 27, over the next 10 years.

Table 27 - Summary Capacity, Enrolment, and Renewal of North Hastings High School

| 2015-16 Year | North Hastings HS |
|--------------------------|-------------------|
| Capacity (OTG) | 903 |
| Enrolment | 457 |
| Surplus Capacity | 446 |
| Utilization | 51% |
| Renewal Needs | \$24.7M |
| Facility Condition Index | 82% |

7.16.2 Scenario: Construction of a new secondary school

The secondary enrolment needs of the North Hastings School Group are met by North Hastings High School. However, there is poor utilization of the school with a significant amount of surplus space and more than \$24 million in renewal needs.

Due to the very high renewal needs of North Hasting High School and projected low enrolment and utilization, the current school could be demolished and reconstructed on the existing site or at a site that is located in the same general area.

Considerations

- (a) If a new school is to be located at a new site, then property for the purpose would need to be purchased for the construction of the new school.
- (b) If a Grade 7-12 model is adopted for the North Hastings School Group, the enrolment at North Hastings High School will increase by approximately 150 students and school utilization would increase by 16% to approximately 67%. Adoption of such a model does not change the scenario, but will require that a larger building be constructed.
- (c) Consideration would have to be given to transportation for students.

7.16.3 Scenario: K-12 Model for North Hastings School Group

The renewal needs for NHHS are \$24.7 million with a capacity of 903.

Due to the very high renewal needs of North Hasting HS and projected low enrolment and utilization, the current school could be demolished and reconstructed on the existing site or at a site that is located in the same general area.

7.17 North Hastings elementary schools

7.17.1 Current situation

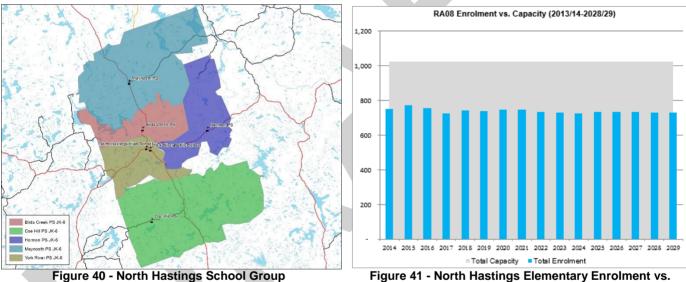

Five elementary schools are in the North Hastings School Group (Figure 40). The list of North Hastings elementary schools is shown in Table 28 below.

Table 28 - North Hastings Elementary Schools

| North Hastings High School |
|----------------------------------|
| Bird's Creek Public School (K-6) |
| Coe Hill School (K-6) |
| Hermon Public School (K-6) |
| Maynooth Public School K-6) |
| York River Public School (K-8) |

An Accommodation Review was completed in May 2009 to consolidate Bancroft Public School and North Hastings Senior Elementary School with renovations and additions to the newly-named York River Public School. Consistent with Policy 15: Student Enrolment/School Capacity: Student Accommodation Review, an accommodation review can only occur if it has been no less than five years since the inception of a study of the school by an Accommodation Review Committee.

Figure 41 illustrates that the combined capacity of the five elementary schools provides a utilization rate of 74%. Larger Figures can be found in Appendix E with additional data.

ure 40 - North Hastings School Group Figure 41 - North Hastings Elementary Enrolment vs Capacity

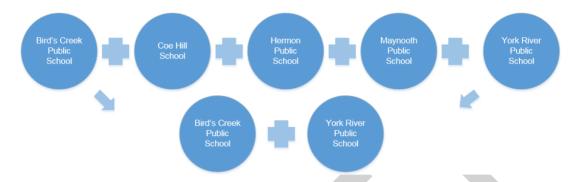

A surplus capacity of approximately 267 students exists. All five of the schools also require significant investment to meet renewal needs. Together, the renewal needs of the elementary schools over the next 10 years is almost \$19 million, as shown in Table 29.

Table 29 - Summary Capacity, Enrolment, and Renewal of North Hastings Elementary Schools

| 2017-18 Year | Bird's Creek PS | Coe Hill School | Herman PS | Maynooth PS | York River PS | Total |
|--------------------------|--------------------|--------------------|--------------|-------------|------------------|---------|
| Capacity (OTG) | 213 | 118 | 142 | 144 | 406 | 1023 |
| Enrolment | 171 | 55 | 55 | 94 | 381 | 756 |
| Surplus Capacity | 42 | 63 | 87 | 50 | 25 | 267 |
| Utilization | 80% | 47% | 39% | 65% | 94% | 74% |
| Renewal Needs | \$4.5M | \$2.3M | \$3.6M | \$3.1M | \$5.0M | \$18.5M |
| Facility Condition Index | 65% | 59% | 77% | 67% | 48% | - |

7.17.2 Scenario: Consolidation of five elementary schools into two elementary schools

The elementary enrolment needs of the North Hastings School Group can be met by consolidation of five elementary student populations into two facilities. It is expected that the consolidated elementary schools would be located at the sites of the existing elementary schools.

Considerations

- (a) If the elementary student populations of Bird's Creek Public School and Maynooth Public School are consolidated at Bird's Creek Public School, a small boundary change with York River Public School may be required. This would result in Bird's Creek Public School utilizing more than 100% of its permanent capacity. A small addition at Bird's Creek Public School may be required.
- (b) If the elementary student populations of Coe Hill School, Hermon Public School and York River Public School are consolidated at York River PS, then a small addition may be required at York River Public School.
- (c) If a Grade 7-12 model is adopted for the North Hastings School Group, then the elementary enrolment will decrease by approximately 150 students, changing the total enrolment from approximately 750 to 600. Adoption of such a model does not change the scenario, but will reduce the required size of the consolidated schools and the requirement for additions.
- (d) Consideration would have to be given to transportation for students.

7.17.3 Scenario: K-12 Model for North Hastings School Group

The renewal needs for NHHS are \$24.7 million with a capacity of 903.

Due to the very high renewal needs of North Hasting HS and projected low enrolment and utilization, the current school could be demolished and reconstructed on the existing site or at a site that is located in the same general area.

7.18 Prince Edward Collegiate Institute

7.18.1 Current situation

Prince Edward County is served by a single secondary school (Grade 9 -12) - Prince Edward Collegiate Institute located in Picton. The Prince Edward School Group elementary schools that feed Prince Edward Collegiate Institute are shown below in Table 30 and Figure 42.

Table 30 - Prince Edward County Elementary Feeder Schools

| Prince Edward Collegiate Institute |
|---|
| Athol-South Marysburgh Public School (K-8) |
| C M L Snider School (K-8) |
| Kente Public School (K-8) |
| Massassaga-Rednersville Public School (K-6) |
| Pinecrest Memorial Elementary School (K-8) |
| Queen Elizabeth School (Picton) (K-8) |
| Sophiasburgh Central School (K-8) |

Figure 43 illustrates that the capacity of Prince Edward Collegiate Institute greatly exceeds the current and projected enrolment. Larger Figures can be found in Appendix E with additional data.

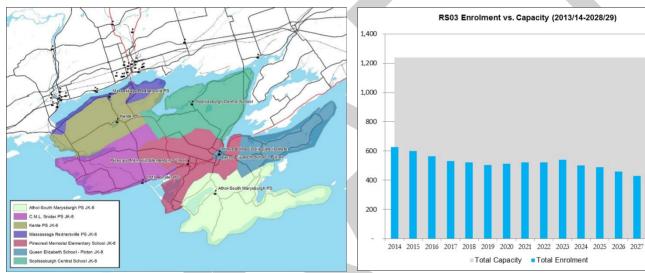

Figure 42 -Prince Edward School Group

Figure 43 - Prince Edward CI Enrolment vs. Capacity

In addition to a combined surplus capacity of 674 student places, the school requires significant investment to meet renewal needs which exceed \$16 million, as shown in Table 31, over the next 10 years.

Table 31 —Summary Capacity, Enrolment, and Renewal of Prince Edward Collegiate Institute

| 2015-16 Year | Prince Edward CI |
|--------------------------|------------------|
| Capacity (OTG) | 1239 |
| Enrolment | 565 |
| Surplus Capacity | 674 |
| Utilization | 46% |
| Renewal Needs | \$16.6M |
| Facility Condition Index | 50% |

7.18.2 Scenario: Grade 7 -12 Model Prince Edward County School Group

The secondary enrolment needs of the Prince Edward School Group are met by Prince Edward Collegiate Institute. However, there is poor utilization of the school with a significant amount of surplus space.

Considerations

- (a) If a Grade 7-12 model is adopted for the Prince Edward School Group, then the enrolment at Prince Edward Collegiate Institute will increase by approximately 300 students and school utilization would increase by 24%.
- (b) Consideration would have to be given to transportation for students.

7.18.3 Scenario: K-12 on PECI property

The renewal needs for PECI are \$16.6 million and with a capacity of 1,239.

If a K-12 model is adopted for all or part of the Prince Edward County School Group, then the enrolment at the current facility will increase. An addition to the building or the construction of a new facility may be required. PECI could be converted to a K-12 facility which was require renovations to suit the intended use (i.e. elementary space) or a new building could be constructed on the PECI site.

- a) PECI can accommodate an additional 600 or more elementary students. The remaining elementary students in the Prince Edward County School Group could be accommodated at elementary schools located within the Prince Edward County School Group.
- b) Consideration would have to be given to transportation for students.

7.19 Prince Edward elementary schools

7.19.1 Current situation

Seven elementary schools are in the Prince Edward school group (Figure 44). The list of Prince Edward elementary schools is shown in Table 32 below.

Table 32 - Prince Edward Elementary Schools

| 2015-16 Year |
|---|
| Athol-South Marysburgh Public School (K-8) |
| C.M.L Snider School (K-8) |
| Kente Public School (K-8) |
| Massassaga-Rednersville Public School (K-6) |
| Pinecrest Memorial Elementary School (K-8) |
| Queen Elizabeth School (Picton) (K-8) |
| Sophiasburgh Central School (K-8) |

Figure 45 illustrates that the combined capacity of the seven elementary schools provides a utilization rate of only 56%. Larger Figures can be found in Appendix E with additional data.

| Renewal Needs | \$1.2M | \$6.3M | \$5.1M | \$2.4M | \$6.1M | \$4.7M | \$3.9M | \$29.7M | | | | | |
| Facility Condition Index | 25% | 73% | 67% | 43% | 54% | 46% | 54% | - | | | | | |

7.19.2 Scenario: Consolidation of seven elementary schools into three elementary schools

The elementary enrolment needs of the Prince Edward School Group can be met by consolidation of the seven elementary schools into three elementary schools. These three elementary schools should be located in such a manner as to minimize busing and transportation times. This can best be accomplished by locating one school in Picton, one school to serve the southern portion of Prince Edward County, and one school to serve the northern and western portions of Prince Edward County. Attendance boundary changes for all elementary schools within the Prince Edward school group would be required.

Considerations

- (a) Queen Elizabeth School (Picton) can accommodate 498 students. If the accommodation requirements due to consolidation exceed this, then construction of an addition is required. Given the significant renewal needs at Queen Elizabeth School (Picton), a new school to replace Queen Elizabeth School (Picton) at the same site would be the preferred option.
- (b) If the consolidated Queen Elizabeth School (Picton) is to be located at a new site, then property for the purpose would need to be purchased and construction of a new school would be required.
- (c) Athol-South Marysburgh Public School is the only school serving the southern portion of Prince Edward County and can accommodate an additional 42 students. If the accommodation requirements due to consolidation exceed this, then construction of an addition is required.
- (d) Students from the remaining elementary schools would need to be accommodated at either Queen Elizabeth School (Picton), Athol-South Marysburgh Public School, or at a new school to be constructed to serve the northern and western portions of Prince Edward County. This new school could be located at the site of an existing school or at a new location in which case land would need to be purchased.
- (e) If a Grade 7-12 model is adopted for the Prince Edward school group, then the elementary enrolment will decrease by approximately 300 students, changing the total enrolment from approximately 1400 to 1100 students. Adoption of such a model does not change the scenario, but will reduce size and costs of the additions or new schools that need to be constructed.
- (f) Consideration would have to be given to transportation for students.

7.19.3 Scenario: K-12 on PECI property

The renewal needs for PECI are \$16.6 million and with a capacity of 1,239.

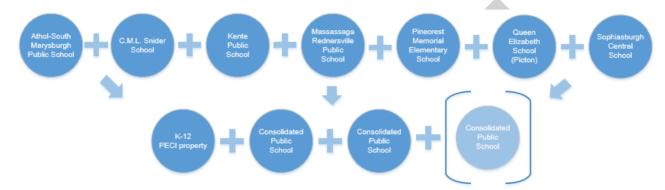

If a K-12 model is adopted for all or part of the Prince Edward County School Group, then the enrolment at the current facility will increase. An addition to the building or the construction of a new facility may be required. PECI could be converted to a K-12 facility which would require renovations to suit the intended use (i.e. elementary space) or a new building could be constructed on the PECI site.

Considerations

- c) PECI can accommodate an additional 600 or more elementary students. The remaining elementary students in the Prince Edward County School Group could be accommodated at elementary schools located within the Prince Edward County School Group.
- d) Consideration would have to be given to transportation for students.

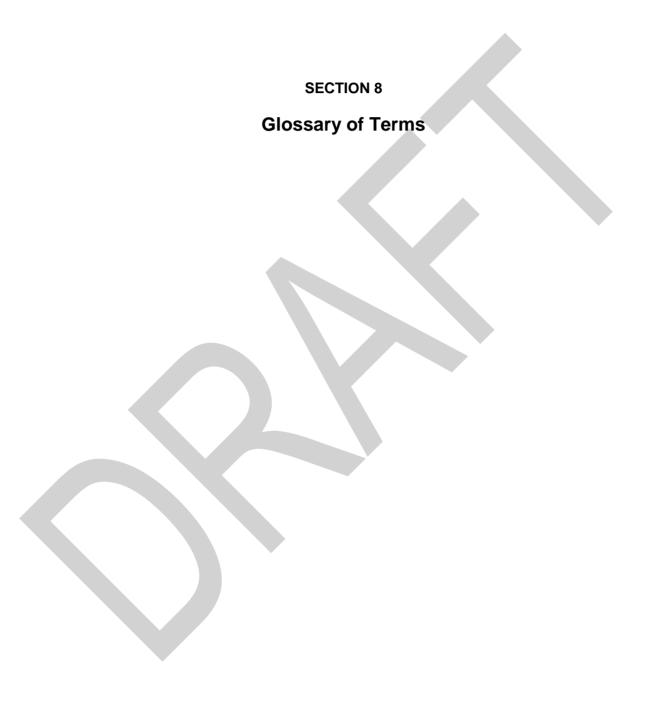

7.19.4 Scenario: K-12 on PECI property plus two or three elementary schools

The renewal needs for PECI are \$16.6 million and with a capacity of 1,239.

If a K-12 model is adopted for part of the Prince Edward County School Group, then the enrolment at the current secondary school building will increase. An addition to the building or the construction of a new facility may be required. PECI could be converted to a K-12 facility which would require renovations to suit the intended use (i.e. elementary space) or a new building could be constructed on the PECI site.

- a) PECI can accommodate an additional 600 or more elementary students. The remaining elementary students in the Prince Edward County School Group could be accommodated at two or three schools located within the Prince Edward County School Group.
- b) Athol-South Marysburgh Public School is the only school serving the southern portion of Prince Edward County and can accommodate 179 students. If the accommodation requirements due to consolidation exceed this, then construction of an addition is required.
- c) Pinecrest Public School and C.M.L Snider Public School serve the central and western portions of the County and can accommodate a total of 959 number of students. However, these schools require significant investment to meet renewal needs which exceed \$12M. Given the significant renewal needs, construction of new schools would be the preferred option
- d) Consideration would have to be given to transportation for students.

8.0 Glossary of terms

Accommodation review: A process, as defined in a school board pupil accommodation review policy, undertaken by a school board to determine the future of a school or group of schools. Any review of a school or group of schools where accommodation issues have been identified. Such accommodation issues may arise from enrolment pressures, excess surplus space, building condition concerns, program changes or changing demographics.

Average Daily Enrolment (ADE): The calculation of the number of students enrolled in a school based on two count dates within the academic year- October 31st and March 31st. The ADE total is calculated by averaging these two full- time equivalent enrolments, which is meant to capture the second semester decline in enrolment as a result of students who graduated at the end of the first semester.

Board: Hastings Prince Edward District School Board

Boundary review: A review undertaken to alter the existing boundary of a school or group of schools. A boundary review may apply in an area with a new school opening, or in areas where enrolment distribution does not efficiently utilize available capacity.

Equity: Equality of access and outcome. An equity program is one that is designed to remove barriers to equality by identifying and eliminating discriminatory policies and practices. Such a program is intended both to remedy the effects of past discrimination and to prevent inequities.

Facility Condition Index (FCI): A building condition as determined by the Ministry of Education by calculating the ratio between the renewal needs and the replacement value for each facility.

Full-Day Kindergarten (FDK): The Full-Day Kindergarten program is a child- centered, developmentally appropriate, integrated, extended day program of learning for four and five year old children.

Full Time Equivalent (FTE): The adjusted head count enrolment to take into account part-time students.

Gross Floor Area (GFA): The total constructed floor area of a building taking into account all classrooms, offices, corridors, stairs, and other spaces.

Head count: The actual number of students attending a school at any given time for any program.

Live birth rate: The number of live births per 1,000 populations.

On the Ground Capacity (OTG): The student capacity of a school or group of schools as determined by the Ministry of Education by loading all school instructional spaces to current Ministry standards for class size requirements and room areas. The OTG is changed whenever a new school or addition is constructed or when a school or portion of a school is demolished.

Operating costs: These encompass all of the expenditures required to operate and maintain the school including heating, lighting, cleaning and routine maintenance.

Prohibitive to Repair (PTR): Designation attached to a building when the FCI is equal to or greater than 65%. A high FCI is indicative of the cost of repairs to the building compared to the cost to rebuild the facility. The 65% FCI threshold that results in the designation of a school as PTR was set by the Ministry of Education.

Renewal Needs: the costs of maintaining and repairing school facilities over a certain period of time, in this case 10 years.

School Group: A group of elementary schools that feed to a secondary school.

School Facilities Inventory System (SFIS): a Ministry of Education database system which tracks facility-related information for all schools in Ontario.

Total Capital Planning Solution (TCPS)/VFA.facility: a Ministry of Education directed capital planning tool which describes the renewal needs of schools based on Ministry-directed condition assessments of school board facilities.

Utilization rate: The measurement of the physical use of the permanent school facility based on the comparison on Enrolment to the On-The-Ground (OTG) Capacity of the school. This calculation provides an understanding of whether a school group or group of schools is over or under capacity and by how much.
